

Blouberg Municipality

KODUMELA MOEPATHUTSE

A BETTER LIFE IS ON THE HORIZON

Beyond the 2009 matric examinations lies a bright future

Hard work is the vehicle; the ship and the airplane if long roads; rough seas and high mountains get on the way to the dream land ahead. Hard work has been the best recipe for success - first, last and always! You need not panic because you have been at it throughout. If you could make it over the last 11 years of your formal schooling, nothing should be difficult now.

We honour with a standing ovation the parents; principals; educators; circuit management; SGBs and all those who went an extra mile to support or prepare our learners for the 2009 final examinations. It takes a community to raise a child.

As we would soon be awaiting the results in anxiety, let us take heart in that ours has been a noble contribution to the socio – economic development of the Blouberg Municipality. With education, the Municipality's road to prosperity is paved with marbles. Now that more of our future engineers; medical doctors; accountants; educators; farmers and economists are sitting their examinations, our tomorrow can only be better.

On behalf of the Council and the people of Blouberg, I wish our Grade 12 and all other learners who will be sitting for the 2009 examinations all I would wish for myself – the best!
