BLOUBERG LOCAL MUNICIPALITY WARNS ABOUT R600-FOR-JOB SCAM

WEDNESDAY, JULY 7, 2021

The Blouberg Local Municipality urges the residents to be vigilant of a fraudster masquerading as Mayor Maseka Pheedi luring in job seekers by calling and sending short messages offering them jobs at municipality.

"There are jobs which need people with Computer Literacy at the municipality" The scammer would send a message like this to unsuspecting people and also demand R600.00 payment to secure the job.

Blouberg Local Municipality has a very sound and transparent recruitment process. The municipality advertises vacant positions/internship programmes in newspapers, municipal website and official social media platforms(Facebook and Twitter).

Municipal Manager, Mr Junias Machaba advises locals to disregard any further communication in this regard.

"We would like to emphasise that the messages and calls are devoid of any truth and are a scam, we do not have such jobs at the municipality, we encourage people who have paid any money to this person to report the matter to the nearest police station ".
