

BLOUBERG MUNICIPALITY

APPROVED TARIFF STRUCTURE

THREE MULTI YEARS

2021 TO 2023

A. FOREWORD

In terms of Section 62(1) of the Municipal Finance Management Act (MFMA) the Accounting Officer of a Municipality is responsible for the financial administration of the municipality; and in terms of S62 (1) (f), must for this purpose take all reasonable steps to ensure- "that the municipality has and implements a tariff structure referred to in Section 74 of MSA. In giving effect to S74 (1) of MSA, the municipality adopts the following as the framework policy within which the municipal council must adopt various policies.

B. Classification and Pricing Strategies of Services.

There are basically different categories of municipal services (i.e. trading, rate and general services) which were discussed in the various municipal policies. These services are defined as services whereby the consumption of the service is measurable and can be accurately apportioned to an individual consumer.

The tariffs for these services are budgeted for in such a way that at least a breakeven situation for the municipality will be realized. Examples of these services include amongst others electricity and property rate tariffs. The council's pricing strategy for these services is to recover the full cost of rendering the service to the communities.

C. Keeping Tariffs Affordable.

The Council is keenly aware of the financial situation of most residents within the municipal area. Therefore, the Council undertakes to keep tariffs at affordable levels. The tariff for a service must therefore be sufficient to cover the cost of the initial capital expenditure required and replacing the physical assets used in its provision.

However sustainability does not only mean that the price of the service must include all the relevant cost elements, it also means that charges to be levied must be collected.

APPENDIX A: PROPOSED TARIFFS STRUCTURE 2020 AND 2023

The Blouberg Municipality will levy from
1 July 2021 the following assessment
rates in respect of the different categories

of rate able property.

1. PROPERTY RATES.

CATEGORIES	2019 AND 2020	2020 AND 2021	2021 AND 2022	2022 AND 2023
Residential	0.0067	0.0071	0.0075	0.0080
Residential property consent use	0.0106	0.011	0.0112	0.0118
Residential impermissible or illegal use	0.0138	0.0146	0.0154	0.0163
Residential vacant land	0.0093	0.0098	0.0103	0.0109
Residential properties for government use	N/A	N/A	0.0140	0.0148
Farms	0.0020	0.0020	0.00212	0.00224
State owned properties	0.0371	0.0392	0.0415	0.0440
Businesses\commercial	0.0093	0.0098	0.0103	0.0109

Property rates tariffs are levied taking into account reductions, rebates, discounts and exemptions provided for in the rates policy and by-law

2. BUILDING PLANS

- Residential buildings R 5.83/M2 with a minimum of R 337.08 (Whichever is the highest)
- Business buildings R 6.89/M2 with a minimum of R 392.20 (Whichever is the highest)

The building plans tariff will be increased by 6% from July 2021

3. ELECTRICITY

It is recommended that all costs related to installation of pre-paid electricity measuring system by the Council be borne by the registered owner of the property. This is to constitute of the cost of any measuring unit, costs related to the general maintenance thereof and any other costs that may be incurred by Council in relation thereto, be for the sole account of the registered owner and never the consumer (unless the consumer is the registered owner).

It is further recommended that the tariff for the supply of Electricity, in terms of Section 20 of MFMA of 2003, and with the approval of the National Electricity Regulator, be increased as follows with effect from July 2020

On behalf of all Consumers:

New connections

- Triple phase meter convention (Electricity cord to the maximum 20 meters) R 4,803.92
