Responsive tenders will firstly be evaluated on functionality. The minimum score for functionality is 70%, and a bidder who scores below this minimum shall not be considered for further evaluation in terms of the preference point systems.

Scoring of Functionality:

Functionality Evaluation Criteria

Functionality will be as follows

•	Company Reputation and Reference	40%
•	Management and key staff experience	30%
•	Financial capacity	5%
•	Plant and equipment	15%

This will be assessed against a minimum number of different types of plant and equipment required to successfully complete the project within the stipulated construction as determined by the employer.

Access to plant may be in a form of ownership, hire or leasing arrangements, orders etc. A letter of intent from hiring and leasing companies starting the number and type of plant and equipment on which arrangement has been made will be accepted

The minimum score required for functionality is 70%, and a bidder who scores below this minimum shall be disqualified and shall not be considered for further evaluation in terms of the 80/20 preference point system.

NOTE: In order for the Tenderer to claim points for Experience under Functionality, the Tenderer must also attach the following proof for each of the completed projects to Form T2.1E:

- . Copy of Appointment Letter for current projects, and
- Certified Copy of Completion Certificate.
- Certified Copy of Qualifications

 	T1.2	

• Third stage –Evaluation in terms of the 80/20 Preference Point System:

Responsive tenders which have achieved the minimum qualification score for functionality will be evaluated further, using the 80/20 preference point system.

Step 1: Calculation of points for Price

The PPPFA prescribes that the lowest acceptable bid will score 80 points for price. Bidders that quoted higher prices will score lower points for price on a pro-rata basis. The formula to be used for calculating points scored for price is the following:

$$Ps = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

Ps = Points scored for price of the bid or tender under consideration

Pt = Price (Rand value) of bid or tender under consideration
Pmin = Price (Rand value) of the lowest acceptable bid or tender

Points scored must be rounded off to the nearest 2 decimal places

Step 2: Calculation of points for B-BBEE status level of contributor

Points shall be awarded to a bidder for attaining the B-BBEE status level of contribution in accordance with the table below:

B-BBEE Status Level of Contributor	Number of points (80/20 system)
1	20
2	18
3	14
4	12
5	8
6	6
7	4
8	2
Non-compliant contributor	0

A bid shall not be disqualified from the bidding process if the bidder does not submit a certificate substantiating the B-BBEE status level of contribution nor is a non-compliant contributor. Such a bidder will score zero (0) out of a maximum of 10 points for B-BBEE. The points scored for price shall be added to the points scored for B-BBEE status level of

contribution to obtain the bidder's total points scored out of 100.

Award of contract to bids not scoring the highest number of points

- (a) A contract must be awarded to the bidder who scored the highest total number of points in terms of the 80/20 preference point system.
- (b) In exceptional circumstances a contract may, on reasonable and justifiable grounds, be awarded to a bidder that did not score the highest number of points. The reasons for such a decision must be approved and recorded for audit purposes and must be defendable in a court of law.

Evaluation of bids that scored equal points

- (a) In the event that two or more bids have scored equal total points, the successful bid must be the one that scored the highest points for B-BBEE.
- (b) If two or more bids have equal points, including equal preference points for B- BBEE, the successful bid must be the one scoring the highest score for functionality.
- (c) In the event that two or more bids are equal in all respects, the award must be decided by the drawing of lots.

F 3.9 Arithmetical errors

Check responsive tender offers for arithmetical errors, correcting then in the following manner

- a) Where there is a discrepancy between the amounts in figures and in words the amount in words shall govern
- b) If bills of quantity (or schedule of quantities or schedule of rates) apply and there is an error in the line item total resulting from the product of the unit rate and quantity, the line item total shall govern and the rates shall be corrected, where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as quoted shall govern and the unit rate shall be corrected
- Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer s addition of prices the total of the price shall govern and the tenderer will be asked to revise selected item prices(and their rates if bills of quantities apply) to archive the tendered total of the prices

F.3.11.2 The procedure for the evaluation of responsive tenders is Method 2.

The financial offer will be scoring using Formula 2 (option 1) in Table F1 where the value of W1 is:

- 1) 90 where the financial value inclusive of VAT of all responsive tenders received have a value in excess of R 50 000 000; or Higher
- 2) 80 where the financial value inclusive of VAT of one or more responsive tender offers have a value that equals of is less than R 50 000 000.

Up to 100 minus W1 tender evaluation points will be awarded to tenderers who complete the preference schedule and who are found to be eligible for the preference claimed.

F.3.18 The number of paper copies of the signed contract to be provided by the Employer is one.

FORM D PREFERENCE SCHEDULE

Acceptable Tenders will be evaluated using a system that awards points on the basis of Tender price and the meeting of specific goals. Failure on the part of a Tenderer to sign this form will be interpreted to mean that point preference is not being claimed.

The acceptable Tenderer obtaining the highest number of points will be awarded the contract. For Tenders with a Tender amount equal to or below R 500 000 a maximum of 80 points is allocated for price and a maximum of 20 points for meeting specific goals, which may include HDI equity, SMME status, job creation and local (South African) content. For Tenders with a Tender amount above R 500 000 a maximum of 90 points is allocated for price and a maximum of 10 points for meeting specific goals.

The points for the meeting of specific goals may only be awarded to an enterprise which is a legal entity, registered as an income tax payer with the South African Revenue Services, and which is an independent and operating enterprise which performs commercially useful functions as set out below. Points can be denied where an enterprise subcontract more than 25% of the value of the contract (excluding SMME's and emerging contractors and materials) at the time of award, exclusive of all VAT, allowances for contingencies, escalation and provisional sums, to other entities.

DEFINITIONS

"Acceptable Tender" means any Tender which, in all respects, complies with the conditions of Tender and specifications as set out in the Tender document, including conditions as specified in the Preferential Procurement Policy Framework Act (Act 5 of 2000) and related legislation.

"Council" refers to the BLOUBERG MUNICIPALITY.

"Equity ownership" refers to the percentage ownership and control, exercised by individuals within an enterprise.

"HDI equity ownership" refers to the percentage of an enterprise, which is owned by individuals, or in the case of a company, the percentage shares that are owned by individuals meeting the requirements of the definition of a HDI.

"Historically disadvantaged individuals (HDIs)" means all South African citizens -

- (i) Who had no franchise in national elections prior to the introduction of the 1983 and 1993 constitutions (Referred to as Previously Disadvantaged Individuals (PDIs) in this document)
- (ii) Women
- (iii) Disabled persons.

"SMME's" (small, medium and micro enterprises) refers to separate and distinct business entities, including cooperative enterprises and NGOs, managed by one owner or more, as defined in the National Small Business (Act 102 of 1996).

Tenders are adjudicated in terms of BM Supply Chain Management Policy, and the following framework is provided as a guideline in this regard.

1. Technical adjudication and General Criteria

- Tenders will be adjudicated in terms of inter alia:
- Compliance with Tender conditions
- Technical specifications

If the Tender does not comply with the Tender conditions, the Tender may be rejected. If technical specifications are not met, the Tender may also be rejected.

With regard to the above, certain actions or errors are unacceptable, and warrants **REJECTION OF THE TENDER**, for example:

- Certified or scanned copies of Tax Clearance Certificates. (Only valid original tax clearance certificates must be attached to the Tender document).
- Pages to be completed, removed from the Tender document, and have therefore not been submitted.
- Failure to complete the schedule of quantities as required only lump sums provided.
- Scratching out without initialling next to the amended rates or information.
- Writing over / painting out rates / the use of tippex or any erasable ink, e.g. Pencil.
- Failure to attend compulsory site inspections
- The Tender has not been properly signed by a party having the authority to do so, according to the Form 2.2.2 – "Authority for Signatory"
- No authority for signatory submitted.
- Particulars required in respect of the Tender have not been provided non-compliance of Tender requirements and/or specifications.
- The Tenderers' attempts to influence, or has in fact influenced the evaluation and/or awarding of the contract.
- The Tender has been submitted after the relevant closing date and time
- Each page of the Contract portion of this Tender document (Part C1 C4) must be initialled by the authorised person in order for the document to constitute a proper Contract between the Employer (GGM) and the undersigned.
- If any municipal rates and taxes or municipal service charges owed by that Tenderer or any of its directors to the municipality, or to any other municipality or municipal entity, are in arrears for more than three months.
- If any Tenderer who during the last five years has failed to perform satisfactorily on a previous contract with the municipality or any other organ of state after written notice was given to that Tenderer that performance was unsatisfactory.

2. Size of enterprise and current workload

Evaluation of the Tenderers' position in terms of:

- Previous and expected current annual turnover
- Current contractual obligations
- Capacity to execute the contract

3. Staffing profile

Evaluation of the Tenderers' position in terms of:

- Staff available for this contract being Tendered for
- Qualifications and experience of key staff to be utilised on this contract

4. Previous experience

Evaluation of the Tenderers' position in terms of his previous experience. Emphasis will be placed on the following:

- Experience in the relevant technical field
- Experience of contracts of similar size
- Some or all of the references will be contacted to obtain their input.

5. Financial ability to execute the contract:

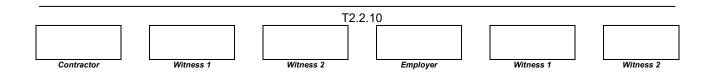

Evaluation of the Tenderers' financial ability to execute the contract. Emphasis will be placed on the following:

- Professional indemnity
- Contact the Tender's bank manager to assess the Tenderers' financial ability to execute the contract and the Tenderer hereby grants his consent for this purpose.

6. Good standing with SA Revenue Services

- Determine whether an original valid tax clearance certificate has been submitted.
- The Tenderer <u>must affix an original valid Tax Clearance Certificate</u> to the <u>second page of the Tender</u> <u>document</u>.

If the Tender does **not** meet the requirements contained in the BLM Procurement Policy, and the mentioned framework, it will be rejected by the Council, and may not subsequently be made acceptable by correction or withdrawal of the non-conforming deviation or reservation.

7. Penalties

The BLOUBERG MUNICIPALITY will if upon investigation it is found that a preference in terms of the Act and these regulations has been obtained on a fraudulent basis, or any specified goals are not attained in the performance of the contract, on discretion of the Departmental Head, one or more of the following penalties will be imposed:

- Cancel the contract and recover all losses or damages incurred or sustained from the Tenderer.
- Impose a financial penalty of twice the theoretical financial preference associated with the claim, which was made in the Tender.
- Restrict the contractor, its shareholders and directors on obtaining any business from the BLOUBERG MUNICIPALITY for a period of 5 years.

8. HDI Status

- Preference points stipulated in respect of a tender include preference points for equity ownership by HDIs.
- The equity ownership must be equated to the percentage of an enterprise or business owned by individuals or, in respect of a company, the percentage of a company's shares that are owned by individuals, who are actively involved in the management of the enterprise or business and exercise control over the enterprise, commensurate with their degree of ownership at the closing date of the tender.
- In the event that the percentage of ownership changes after the closing date of the tender, the tenderer must notify the Council accordingly and such tenderer will not be eligible for any preference points. Preference points may not be claimed in respect of individuals who are not actively involved in the management of an enterprise or business and who do not exercise control over an enterprise or business commensurate with their degree of ownership.

Claims made for equity ownership by an HDI must be considered according to the following criteria:

- Equity within private companies must be based on the percentage of equity ownership;
- A Consortium or Joint Venture may, based on the percentage of the contract value managed or executed by their HDI members, be entitled to equity ownership in respect of an HDI.
- The number of points scored for a Consortium or Joint Venture must be added to the number of points scored for achieving specified goals.
- A person awarded a contract as a result of preference for contracting with, or providing equity ownership to, an HDI, may not subcontract more than 25% of the value of the contract to a person who is not an HDI or does not qualify for such preference.

The following is applicable to calculate points for price in respect of tenders with a value between R200,000-01 (VAT incl) and R 500,000-00 (VAT incl)		The fol	lowing is applicable to calculate points for price in respect of tenders with a value above R 500,000-01 (VAT incl).

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2017

This preference form must form part of all bids invited. It contains general information and serves as a claim form for preference points for Broad-Based Black Economic Empowerment (B-BBEE) Status Level of Contribution

NB: BEFORE COMPLETING THIS FORM, BIDDERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF B-BBEE, AS PRESCRIBED IN THE PREFERENTIAL PROCUREMENT REGULATIONS, 2017.

1. GENERAL CONDITIONS

- 1.1 The following preference point systems are applicable to all bids:
 - the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
 - the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2

- a) The value of this bid is estimated to exceed/not exceed R50 000 000 (all applicable taxes included) and therefore the 80/20 preference point system shall be applicable;
 or
- b) Either the 80/20 or 90/10 preference point system will be applicable to this tender (delete whichever is not applicable for this tender).
- 1.3 Points for this bid shall be awarded for:
 - (a) Price; and
 - (b) B-BBEE Status Level of Contributor.
- 1.4 The maximum points for this bid are allocated as follows:

	POINTS
PRICE	80
B-BBEE STATUS LEVEL OF CONTRIBUTOR	20
Total points for Price and B-BBEE must not exceed	100

- 1.5 Failure on the part of a bidder to submit proof of B-BBEE Status level of contributor together with the bid, will be interpreted to mean that preference points for B-BBEE status level of contribution are not claimed.
- 1.6 The purchaser reserves the right to require of a bidder, either before a bid is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the purchaser.

2. **DEFINITIONS**

- (a) "B-BBEE" means broad-based black economic empowerment as defined in section 1 of the Broad-Based Black Economic Empowerment Act;
- (b) "B-BBEE status level of contributor" means the B-BBEE status of an entity in terms of a code of good practice on black economic empowerment, issued in terms of section 9(1) of the Broad-Based Black Economic Empowerment Act;
- (c) "bid" means a written offer in a prescribed or stipulated form in response to an invitation by an organ of state for the provision of goods or services, through price quotations, advertised competitive bidding processes or proposals;

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
 - This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
 - In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:	
(Bid Number and Description)	
in response to the invitation for the bid made by:	
(Name of Municipality / Municipal Entity)	
do hereby make the following statements that I certify to be true and complete in every respe-	et:
I certify, on behalf of:that	t:
(Name of Bidder)	

- 1. I have read and I understand the contents of this Certificate;
- 2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
- 3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
- 4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
- 5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
 - (a) has been requested to submit a bid in response to this bid invitation;
 - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder

- 6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
- 7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
- 8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

MBD9

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the Tenderer's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the Conditions of Contract identified in the Contract Data. Acceptance of the Tenderer's Offer shall form an agreement between the Employer and the Tenderer upon the terms and conditions contained in this Agreement and in the Contract that is the subject of this Agreement.

The terms of the contract are contained in:

- Part 1 Agreements and Contract Data (which includes this Agreement)
- Part 2 Pricing Data
- Part 3 Scope of Work

and drawings and documents or parts thereof, which may be incorporated by reference into Parts 1 to 4 above.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Tender Schedules as well as any changes to the terms of the Offer agreed by the Tenderer and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Agreement. No amendments to or deviations from said documents are valid unless contained in this Schedule, which must be duly signed by the authorised representative(s) of both parties.

The Tenderer shall within two weeks after receiving a completed copy of this Agreement, including the Schedule of Deviations (if any), contact the Employer's agent (whose details are given in the Contract Data) to arrange the delivery of any bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the Conditions of Contract identified in the Contract Data at or just after the date this Agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this Agreement.

Notwithstanding anything contained herein, this Agreement comes into effect on the date when the Tenderer receives one fully completed original copy of this document, including the Schedule of Deviations (if any). Unless the Tenderer (now Contractor) within five days of the date of such receipt notifies the Employer in writing of any reason why he cannot accept the contents of this Agreement, this Agreement shall constitute a binding contract between the parties.

	Extensions of time in respect of clause 42 in respect of abnormal rainfall shall be calculated using the following formula for each calendar month or part thereof:							
	V = (Nw - Nn) + (Rw - Rn) X							
	Where:							
	V = Extension of time in calendar days in respect of the calendar month under consideration.							
	Nw = Actual number of days during the calendar month on which a rainfall of 10 mm or more has been recorded.							
	Nn = Average number of days in the relevant calendar month, as derived from existing rainfall records, on which a rainfall of 20mm or more has been recorded for the calendar month.

	Rn = Average rainfall in mm for the calendar month as derived from existing rainfall records as stated in the Site Information.							
	For purposes of the Contract Nn, Rn, X and Y shall have those values assigned to them in the South African Weather Service's rainfall records of the nearest station to the site.							
	If V is negative and its absolute value exceeds Nn, then V shall be taken as equal to minus Nn.							
	The total extension of time shall be the algebraic sum of all monthly totals for the period under							

C1.7										
Contractor		Witness 1		Witness 2		Employer		Witness 1		Witness 2

consideration, but if the total is negative the time for completion shall not be reduced due to subnormal rainfall. Extensions of time for part of a month shall be calculated using pro rata values of Nn and Rn. This formula does not take account flood damage which could cause further or concurrent delays and will be treated separately as far as extension of time is concerned. The factor (Nw - Nn) shall be considered to represent a fair allowance for variations from the average in the number of days during which rainfall exceeds 10 mm. The factor (Rw-Rn) shall be considered to represent a fair allowance for variations from the average in the number of days during which the rainfall did not exceed 10 mm but wet conditions prevented or disrupted work. For the purpose of applying the formula, accurate rain gauging shall be taken at a suitable point on the Site and the Contractor shall at his own expense, take all necessary precautions to ensure that rain gauges cannot be interfered with by unauthorized persons. 42 A delay caused by inclement weather conditions will be regarded as a delay only if, in the opinion of the Engineer, all progress on an item or items of work on the critical path of the working programme of the contractor has been brought to a halt. Delays on working days only (based on a five-day working week) will be taken into account for the extension of time, but the Contractor shall make provision in his programme of work for an expected delay of "n"" working days caused by normal rainy weather, for which he will not receive any extension of time, where "n" equals days. Extension of time during working days will be granted to the degree to which actual delays, as defined above, exceed the number of "n" workings days. Payment for labour-intensive component of the works Payment for works identified in the Scope of Works as being labour-intensive shall only be made in accordance with the provisions of the Contract if the works are constructed strictly in accordance with the provisions of the Scope of Work. Any payment for such works shall not relieve the Contractor in any way from his obligations either in contract or in delict Linkage of payment for labour-intensive component of works to submission of project data The Contractor's payment invoices shall be accompanied by labour information for the corresponding period in a format specified by the employer. If the contractor chooses to delay submitting payment invoices, labour returns shall still be submitted as per frequency and timeframe stipulated by the Employer. The contractor's invoices shall not be paid until all pending labour information has been submitted. Applicable Labour Laws The current Ministerial Determination (also downloadable at www.epwp.gov.za), Expanded Public Works Programmes, issued in terms of the Basic Condition of Employment Act of 1997 by the Minister of Labour in Government Notice, shall apply to works described in the scope of work as being labourintensive and which are undertaken by unskilled workers.

C2.1 PRICING INSTRUCTIONS

- 1. The Tender Data the Scope of Work and the Drawings are to be read in conjunction with the Schedule of Quantities.
- 2. a. The Schedule comprises items covering the Contractor's profit and costs of general liabilities and of the construction of temporary and permanent Works.
 - b. Although the Tenderer is at liberty to insert a rate of his own choosing for each item in the Schedule, his attention is drawn to the fact that the Contractor has the right, under various circumstances, to payment for additional works carried out and that the Engineer is obliged to base his assessment of the payment to be paid for such additional work on the rates inserted in the Schedule by the Contractor.
 - c. Clause 8 of each Standardized Specification and the measurement and payment clause of each Particular Specification, read together with the relevant clause of the Project Specification, set out what ancillary or associated activities are included in the rate for the operations specified.
- 3. Descriptions in the Schedule of Quantities are abbreviated. The schedule has been drawn up generally in accordance with the latest issue of "Civil Engineering Quantities". Should any requirement of the measurement and payment clause of the applicable Standardized Specification, or the Project Specification, or the Particular Specification(s) conflict with the terms of the Schedule or, when relevant "Civil Engineering Quantities", the requirement of the Standardized, Project or Particular Specification, as applicable, shall prevail.
- 4. Unless otherwise stated, items are measured net in accordance with the Drawings, and no allowance has been made for waste.
- 5. The prices and rates to be inserted in the Schedule of Quantities are to be the full inclusive prices to the Employer for the work described under the several items. The prices and rates shall be exclusive of Value Added Tax. Such prices shall cover all costs and expenses that may be required in and for the construction of the work described, and shall cover the cost of all general risks, liabilities, and

CONTRACT NO: BM09/20/21

SENWABARWANA INTERNAL STREET AND STORMWATER PHASE 11 B

C3 SCOPE OF WORK

All definitions, interpretations and general provisions for the General Conditions of Contract for Construction Work (2010) (2^{ND} edition) are applicable.

C 3.1 DESCRIPTIONS OF WORKS

C3.1.1 Client's Objective

The Clients objective is to make sure that all internal streets around the area be upgraded.

It is a specific goal of this project that the labour component be maximised where it is economically feasible, and that the use of this labour goes hand in hand with on the job training of the labour force. The project is thus process <u>and</u> product orientated, and it is expected that the contractor will pursue these goals in the execution of the project.

C3.1.2 Overview of the Works

The work entails SENWABARWANA INTERNAL STREET AND STORMWATER PHASE 11 B

C3.1.3 Extend of the Works (ROAD 6,7,8,9)

The work to be carried out by the Tenderer under this contract comprises mainly of the following:

- Site establishment.
- Setting out of works
- Construction of a new 2.41 Km Road (Roadbed, Selected Layer, Subbase, Base,30mm Asphalt)
- Construction of storm water Drainage (V-drains)
- Construction of Concrete Kerbs
- To install the road signs
- Road Marking
- To finish the road reserve after completion of the works

C3.1										
Contractor		Witness 1	1	Witness 2	J	Employer		Witness 1	J	Witness 2

C3.1.3 Location of the Works

The project is located in Senwabarwana.

C3.1.4 Construction program

It is specifically brought to the notice of the Contractor that time is critical on this project, and the construction period will be a major factor in the award of the tender.

Tenderers shall submit with their tender their **preliminary weekly programme for the construction** of the Works under this contract to suit their proposed method of executing the Works. The programme shall be sufficiently detailed to differentiate between the various activities so that the contract may be properly evaluated.

C3.1.5 Change in works

The Engineer may, from time to time by order in writing without in any way vitiating the Contract or giving to the Contractor any claim for additional payment, require the Contractor to proceed with the execution of the works in such order as in his opinion may be necessary, and may alter the order of or suspend any part of the Works at such time and times as he may deem desirable and the Contractor shall not, after receiving such written order, proceed with work ordered to be suspended until he shall receive a written order to do so from the Engineer. Where the work must of necessity be carried out in conjunction with work of other Contractors, or with that of the Employer, it shall be co-ordinated and arranged in such a manner as to interfere as little as possible with the progress of such other work so as to offer every reasonable facility to other Contractors or to employees of the Employer.

C3.2.2 Drawings

The Engineer will provide the Contractor with one full set of drawings, which will be used exclusively for the recording of as built information by the Contractor.

Only dimensions, positions, levels, co-ordinates etc. that change from the original values, will be required to be entered on these drawings. These drawings, fully marked up, will be handed to the Engineer at the issue of the Certificate of completion, which will not be issued until the asbuilt information has been received.

The applicable drawings are at the end of this book

The applicable drawings mentioned above are attached at the end of this section (C3 – Scope of Work).

C3.3 PROCUREMENT

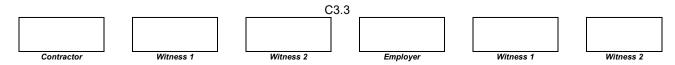

The Tenderers notice is drawn to the fact that the awarding of this tender will be in terms of the Supply Chain Management Policy of the BLOUBERG MUNICIPALITY and The Standard Conditions of Tender as contained in Annexure F of the September 2005 edition of the CIDB Standard for Uniformity in Construction Procurement.

C3.4 SUB-CONTRACTING

No work may be sub-contracted to another party unless approval is given by the Engineer in writing. The Contractor is to submit to the Engineer in writing a request for appointment of a particular sub-contractor. Accompanying this request is to be the full detail of the sub-contractor, including:

- Previous experience
- Work which will be sub-contracted to him/her
- Approximate value of the work to be sub-contracted

Before the Engineer in terms of Clause 49 hereof issues any certificate that includes any payment in respect of work done or goods supplied by any sub-contractor appointed in accordance with the provisions of Clause 6.3 of the General Conditions of Contract for Construction works (2004), he shall

be entitled to call upon the Contractor to furnish reasonable proof that all payments (less retention moneys) included in previous certificates in respect of the work or goods of such sub-contractors have been made or discharged by the Contractor, in default of which, unless the Contractor:

- ✓ Informs the Engineer in writing that he has reasonable cause for withholding or refusing such payment; and
- ✓ Submits to the Engineer reasonable proof that he has so informed such sub-contractor in writing.

C3.5 CONSTRUCTION

C3.5.2 Plant and materials

All materials shall comply with the requirements of the South African Bureau of Standards, and shall bear the official standardization mark. Where SABS standard does not exist for a certain material, or a material does not bear the official standardization mark, the Engineers approval of such material must be gained before use thereof.

C3.5.3 Construction Equipment

All equipment on site shall be in a good working order, and is to be in such a condition that it can achieve production rates which are typical of the industry standards.

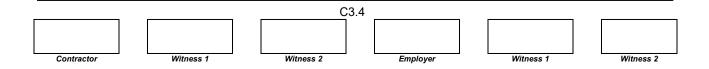

Should any equipment, in the opinion of the Engineer, be substandard or breaks down frequently to such an extent that it affects the progress on the project, the Engineer may instruct the Contractor to replace such equipment.

C 3.5.4 Existing Services

The Contractor shall so carry out all his operations as not to encroach on, or interfere with, trespass on, or damage adjoining lands, building properties, roads, structures, places and things in the vicinity of the Works, and he shall free and relieve the Employer of any liability that may be incurred in consequence of his failure to do so.

The services existing on the site will be either shown on the drawings or pointed out on site by the Engineer and / or the Municipality. No excavation work will commence unless a representative of the Municipality and/or the Engineer have been requested to point out existing services in the area under construction. Written confirmation of services that have been pointed out by the Municipality is to be obtained by the Contractor.

All existing services on the site may not be shown on the drawings or be visible on the site. The Engineer may order excavation by hand in order to search for and expose services. An item has been included in the Schedule of Quantities to cover the cost of such work if so ordered by the Engineer. Where a service is damaged because of the Contractors negligence he shall be liable for the cost involved in the repair of the services and any other consequent cost that may arise due to the interruption of the damaged services.

No excavation is to take place until a representative from the Municipality has been contacted and he has pointed out the existing services to the Contractor and confirmed it in writing. The same shall apply to all Telkom services in the area.

C3.5.5 Site Establishment

Source of Water Supply

The Contractor is to arrange with the Local Authority for water and be responsible for the costs of water for construction purposes.

Sources of power supply

The Contractor is to arrange with the Local Authority for a connection. The Contractor will be responsible for the costs of electricity consumed as well as the connection costs.

Location of camp and depot

The Contractor shall make arrangement of the Contractors camp to the Contractor during the site inspection.

Sanitary facilities

The Contractor is to provide the necessary sanitary facilities at his camp, all of which will be governed by the requirements of the Local Authority. The contractor shall pay all sanitary fees and charges due.

Temporary offices

The Contractor is required to provide a specific office space for the Engineers, for the Engineer to perform administrative functions on an ad hoc basis.

Neither housing nor shelters will be provided for the contractor's employees, and the Contractor shall make his own arrangements to house his employees and transport them to the Site.

Laboratory facilities

The use of commercial laboratories will be allowed, but the laboratory to be used is subject to the approval of the Engineer.

Sanitary facilities

The facilities are, however, to be kept in a clean and hygienic condition, to the satisfaction of the Engineer. All sanitary facilities are to conform to the by-laws of the Local Authority.

C3.5										
Contractor		Witness 1		Witness 2		Employer		Witness 1	I	Witness 2

Name Boards

One name boards shall be provided in positions as ordered by the Engineer. The Engineer will provide the lettering required once the tender is awarded.

Survey assistant and equipment

The Contractor will however make 2 survey assistants available to the Engineer as and when required, as well as the odolite and/or level plus accessories.

C3.5.6 Site Usage

Ground and access to the works

The Contractor shall where necessary on or adjacent to roads which carry traffic, provide all the necessary barricades and signs in accordance with the stipulations of the South African Road Traffic Signs Manual, and in strict accordance with the requirements of the Protective Services of the BLOUBERG MUNICIPALITY.

The Contractor shall further ensure that all public roads that are used for access to the site are kept free of debris at all times. The Contractor shall also take adequate measures to ensure that dust is kept to an acceptable level. The term acceptable is to be deemed as acceptable to the Engineer.

Care, damage and protection

The Contractor shall at his own cost make full provision for all watching and lighting necessary for the protection of all persons, animals, vehicles, etc., from injury by reason of the Works. He shall provide ample warning signs, guard rails, etc., around open excavations, stacks of materials, excavated material, debris or the like, and he shall be held liable for all claims made upon himself or upon the Employer by reason of his neglect of all such precautions and provisions.

During the periods of construction of the Works and the repair of defects, the Contractor shall, at his own cost, to the satisfaction of the Engineer and the relevant Authority, take sufficient and adequate measures to avoid interrupting the use of all roads, footpaths, water courses, drains, pipes, telephones, electric wires and cables, premises, places and works, public or private, which may in any way be interfered with by the operations; and shall also afterwards permanently restore all structures and everything which may have been temporarily displaced or otherwise interfered with, all to the satisfaction of the Engineer and the relevant Authority, without extra charge beyond the Contract price.

Survey beacons

The Contractor shall take care to safeguard any permanent survey beacons such as erf boundary pegs and reference beacons. Should the Contractor disturb any such pegs and beacons, he shall have them replaced at his own cost by a registered Land Surveyor. The

	C3.6											
Contractor		Witness 1		Witness 2		Employer		Witness 1		Witness 2		

Contractor is to provide the Engineer with written confirmation from the Land Surveyor that he has replaced the relevant beacons.

The Contractor's attention is drawn to article 35(i) of the Land Surveying Act No. 9 of 1927 (as amended) in this regard.

Blasting

As the construction takes place within a built up area, extreme care is to be taken during any blasting operations. No blasting shall be permitted without prior written consent from the Engineer. Written as well as verbal notice will be given to all house owners in the affected area 24 hours prior to the blast being set off, and the contractor is to do a survey of all the houses (internal and external) in the area prior to blasting.

A full daily report of all blasting operations (in duplicate) is to be completed by the Contractor.

This report shall inter alia contain the following information:

- Date and time of each blast
- Number of holes
- Charge per hole
- Use of relays, etc.

This report is to be submitted to the Engineer on a weekly basis, and is to be countersigned by the Engineer.

The contractor is to be noted that he is not to use or permit any person to use an explosive powered tool, unless—

- (a) it is provided with a protective guard around the muzzle end, which effectively confines any flying fragments or particles; and
- (b) the firing mechanism is so designed that the explosive powered tool will not function unless—
 - (i) it is held against the surface with a force of at least twice its weight; and
 - (ii) the angle of inclination of the barrel to the work surface is not more then 15 degrees from a right angle:

Protection of existing vegetation

Before any tree is cut down and removed from the site, the Contractor shall confirm the necessity of such action with the Engineer or his Representative.

Access to individual erven

C3.7										
Contractor	Witness 1	Witness 2	Employer	Witness 1	Witness 2					

Access to all public and private property must be maintained at all times. Where excavations cross the access point to any property, the Contractor is to make sure that access be properly done for vehicles to pass.

The Engineer must approve the method of providing access before any excavation commences.

Use of construction vehicles and equipment

The contractor shall ensure that all construction vehicles and mobile plants—

- (a) are of an acceptable design and construction;
- (b) are maintained in a good working order;
- (c) are used in accordance with their design and the intention for which they where designed, having due regard to safety and health;
- (d) are operated by workers who-
 - (i) have received appropriate training and been certified competent and been authorised to operate such machinery; and
 - (ii) are physically and psychologically fit to operate such construction vehicles and mobile plant by being in possession of a medical certificate of fitness:
- (e) arrangements to guard against the dangers relating to the movement of vehicles and plant, in order to ensure their continued safe operation;
- (f) are prevented from falling into excavations, water or any other area lower than the working surface by installing adequate edge protection, which may include quardrails and crash barriers;
- (g) where appropriate, are fitted with structures designed to protect the operator from falling material or from being crushed should the vehicle or mobile plant overturn;
- (h) are equipped with an electrically operated acoustic signaling device and a reversing alarm; and
- (j) are on a daily basis inspected prior to use, by a competent person who has been appointed in writing and the findings of such inspection is recorded in a register.
- (j) no person rides or be required or permitted to ride on any construction vehicle or mobile plant otherwise than in a safe place provided thereon for that purpose;
- (k) every construction site is organised in such a way that, as far as is reasonably practicable, pedestrians and vehicles can move safely and without risks to health;
- (I) the traffic routes are suitable for the persons using them, sufficient in number, in suitable positions and of sufficient size;
- (m) every traffic route is, where necessary indicated by suitable signs for reasons of health or safety;
- (n) bulldozers, scrapers, loaders, and other similar mobile plant are, when being repaired or when not in use, fully lowered or blocked with controls in a neutral position, motors stopped and brakes set;

C3.8											
Contractor	Witness 1	Witness 2	Employer	Witness 1	Witness 2						

- (o) whenever visibility conditions warrant additional lighting, all mobile plant are equipped with at least two headlights and two taillights when in operation;
- (p) when workers are working on or adjacent to public roads, reflective indicators are provided and worn by the workers.

3.6 MANAGEMENT

C3.6.1 Management of the Works

Planning and programme

The Contractor shall deliver to the Engineer within **14** days, calculated from the commencement date, a realistic programme showing the order of procedure, the duration of activities making up the programme and method which he proposes to use in carrying out the Works in order to meet the due completion date for this project.

The tenderer is to note that the penalty for failing to complete the works is **R 2000.00** per day.

Setting out of the works

Generally the positions of the works have been fixed on the plans according to the existing stand boundaries. The Engineer is to approve all setting out prior to commencement of excavation.

Excavation of works & safety

The contractor shall ensure that all excavation work is carried out under the supervision of a competent person who is been appointed in writing. The Contractor will evaluate, as far as is reasonably practicable, the stability of the ground before excavation works begin and he/she shall not permit any person to work in an excavation which has not been adequately shored or braced.

The Contractor will cause convenient and safe means of access to every excavation area in which person are required to work and such access hall not be further than 6m from the point where any worker within the excavation is working.

The Contractor must ascertain as far as is reasonably practicable the location and nature of electricity, water, gas or other similar services which may in any way be affected by the work to be performed, and shall before the commencement of excavation work that may affect any such service, take the steps that may be necessary to render the circumstances safe for all persons involved;

The Principal Contractor shall cause every excavation which is accessible to the public or which is adjacent to public roads or thoroughfares, or whereby the safety of persons may be endangered, to be:

- (i) adequately protected by a barrier or fence of at least one metre in height and as close to the excavation as is practicable; and
- (ii) provided with warning illuminants or any other clearly visible boundary indicators at night or when visibility is poor;

The Principal Contractor shall cause warning signs to be positioned next to an excavation within which persons are working or carrying out inspections or tests.

Inspection by engineer

No stage of construction shall be proceeded with until the Engineer or his representative has examined and approved the previous stage. If any work is covered or hidden from view before the Engineer has inspected same, the Contractor shall at his own cost open the covered work for inspection. The Contractor shall also be responsible for making good any work damaged by such uncovering.

Employment of local labour

It is a specific criterion of this project that should as far as possible adhere to EPWP principles, and to meet these principles the following procedures will be followed:

All labourers are to be sourced from Kromhoek within Blouberg Municipal area of jurisdiction and a minimum of 50 local labours have to be employed for the duration f the project and the Contractor may only bring in key personnel from outside this area. The fixed rate for the appointment of local labour will be R 150 per day. This will be payable by the Contractor on monthly basis.

Key personnel would typically include the Contracts Manager, Site Agent, and Supervisor for each discipline, and operators of plant where the operator must be seated.

A Monthly labour report on all local labour i.e. payments and labour days should be submitted to the Engineer at the end of each month in order for the Engineer to submit a report to the Employer.

None of the Works shall be executed except between sunrise and sunset on Monday to Saturday, inclusive, of any week, and none of the Works shall be executed on any special non-working days stated in the Contract Data, unless:

- ✓ The Engineer's permission in writing is obtained, subject to such conditions as my be laid down by the Engineer; or
- ✓ Provision is specifically made for it in the Contract; or
- ✓ Work is unavoidable or necessary for the saving of life or property or for the safety of the Works.

Site Meetings

Regular meetings will be held between all relevant parties to establish the progress and / or delays and problems that might occur on site. Any problems of delays will be address accordingly and the Contractor will receive proper instructions with reference to this matter.

Communication

The Engineer's representative on this project will be: Mr Hulisani Tsanwani

Contact No: 015 291 1161/072 791 9934

The contact person for the Employer is: Mr Mories Makobela

Contact No: 015 505 7100

Daily Records

Daily records of resources (equipment and people employed) must be kept and must be available on site at all times. These records will include i.e. site instruction book, site diary, site visit register, contractual documentation and minutes of all project meetings. Labour information should be kept updated at all times.

Compliance with applicable laws

The Contractor shall, in performance of the Contract, comply with all applicable laws, regulations and statutory provisions and agreements, and shall in particular, on the request of the Engineer, provide proof that he has complied therewith with regard to amongst others:

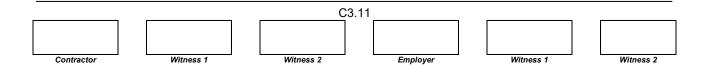

- √ Wages and conditions of work; and
- ✓ Safety

Payment Certificates

As consideration for the construction, completion and defects correction of the Works, the Employer shall pay the Contractor in terms of the provisions of the Contract.

Clearance of site

On completion of the Works, the Contractor shall clear away and remove from the site all Construction Equipment, surplus materials, rubbish and temporary works of every kind and leave the whole of the site and the works clean and in a safe condition. All streams and watercourses (where applicable) shall be cleaned and restored to the condition as at the commencement of the Works. If the Contractor does not, within a reasonable time, comply with this requirement, the Employer may have the site cleared and recover the cost thereof from the Contractor.

Termination of Contract

If application is made for the sequestration of the Contractor's estate, or if the Contractor publishes a notice of surrender of his estate or presents a petition for the acceptance of the surrender of his estate as insolvent, or makes a compromise with his creditors, or assigns in favour of his creditors, or agrees to carry out the Contract under the supervision of a committee representing his creditors, or (being a company) goes into liquidation, whether provisionally of finally (other than a voluntary liquidation for the purposes of amalgamation or reconstruction), or if the contractor assigns the contract without having first obtained the Employer's consent in writing, or if execution is levied on his goods or if the Engineer certifies reference to this Clause, that in his opinion the Contractor:

- ✓ Has abandoned the contract: or
- ✓ Without reasonable excuse has failed to commence the Works in terms of Clause 10 of the General Conditions of Contract for Construction Works (2015), or has suspended the progress of the Works for fourteen (14) days after receiving from the Engineer written notice to proceed or
- ✓ Has failed to proceed with the Works with due diligence; or
- ✓ Has failed to remove materials from the site or to pull down and replace work within
 fourteen (14) days after receiving from the Engineer written notice that the said materials
 or work have been condemned and rejected by the Engineer in terms of these
 conditions; or
- ✓ Is not executing the Works in accordance with the Contract, or is neglecting to carry out his obligations under the Contract; or
- ✓ Has, to the detriment of good workmanship or in defiance of the Engineer's instruction to the contrary, sublet any part of the Contract; or
- ✓ Has assigned the Contract or any part thereof without the Employer's consent in writing;
 or
- ✓ The contractor or anyone on his behalf or in his employ would pay, offer or offer as payment to any person in the employ of the Employer a gratuity or reward or commission; or
- ✓ The contractor furnished inaccurate information in the Schedules forming part of this
 Contract.

Then the Employer may, after giving fourteen (14) days' notice in writing to the Contractor, terminate the Contract and order the Contractor to vacate the Site and to hand it over to the Employer, and the Employer may then enter upon the site and the Works and expel the Contractor there from without thereby affecting the rights and powers conferred on the Employer of the Engineer by the Contract, and the Employer may himself complete the Works or may employ another contractor to complete the Works, and the Employer or such other contractor may use for such completion so much of the construction equipment, temporary works and materials bought onto the site by the Contractor as the Employer may think proper, and the Employer may at any time sell any of the said construction equipment, temporary works and unused materials and apply the proceeds of sale toward payment of any sums that may be due or become due to the Employer by the Contractor under the Contract. In such circumstances the Contractor shall forthwith vacate the site and shall not be entitle to remain on the site on the grounds that he is entitled to do so on a right of

retention until amounts due to him have been paid, neither will the contractor be entitled to any further payments of this Contract.

C3.7 HEALTH AND SAFETY

Health & Safety Issues

All work is to be carried out in accordance with the Occupational Health and Safety Act and Regulations (Act 85 of 1993) (a copy of which must be kept on site), the Explosive Material Act of (Act 26 of 1956), the Minerals Act of 1991, and the Factories Machinery and Building Work Act (No 22 of 1941).

The Contractor's notice is drawn to the stipulations of the Construction Regulations 2003, a regulation of the Health and Safety Act 1993 (Gov Notice No R1010 of 18 July 2003). The construction regulation will be applied vigorously on the project.

The Contractor to be appointed must have made provision for the cost of health and safety measures during the construction process. The contractor must have the necessary skills, competencies and resources to carry out the work safely. A proper Safety Plan is to be submitted by the Contractor and a copy thereof is to be made available to all applicable appointed labourers and permanent workers on this project.

The Contractor is to ensure that the legal compliance for the Health and Safety issues are in place. Audits will be carried out to ensure that the Contractor is registered and in good standing with the Workmen's Compensation fund and that the Contractor has affected insurance indemnifying the Employer against penalties levied upon the Employer due to the acts of omissions of the Contractor in failing to comply with the provisions of the OHS regulations 2003. A compliance audit will also be carried out to ensure that the Contractor has appointed a full-time competent person in writing to deal with the issues of the OHS and that a risk assessment has been conducted and a copy of the Safety plan is on site before any work commences.

Operational audits will be carried out on the following important issues:

- ✓ That the Safety Plan is on site at all times
- ✓ That the Contractor's Safety file is on site at all times
- ✓ That the Safety Officer is on site at all times
- ✓ That Safety meetings are conducted as per the Safety Plan
- ✓ That employees are working under safe conditions.
- ✓ That the public is not placed in danger
- ✓ That there is no harm to the environment.

Accommodation of traffic

It is expected of the Contractor to ensure that the free flow of traffic is possible throughout the construction period.

	C3.13										
Contractor	ll .	Witness 1		Witness 2	1	Employer	1	Witness 1	1	Witness 2	

The Contractor is to provide all necessary barricades, signs and lighting in accordance with the stipulations of the South African Road Signs Traffic Manual, and the Protective Services of the BLOUBERG MUNICIPALITY. All work is to be to the satisfaction of the Engineer.

Reporting of accidents

In addition to any statutory regulations, the Contractor shall, as soon as practicable, report to the Engineer every occurrence on the Works or the site causing damage to property of injury of death of persons. If required by the Engineer, the Contractor will submit a report in writing to the Engineer within 48 hours of such requirement setting out full details of the occurrence. The Engineer shall have the right to make any enquiries either on the site or elsewhere as to the cause and results any such occurrence and the Contractor shall make available to the Engineer the necessary facilities for carrying out such enquiries.

PROJECT SPECIFICATIONS

C3.2 PART B: MATTERS RELATING TO THE STANDARD SPECIFICATIONS

B1 PROJECT SPECIFICATIONS REFERRING TO THE STANDARD SPECIFICATIONS AND ADDITIONAL SPECIFICATIONS

In certain clauses the standard specifications allow a choice to be specified in the project specifications between alternative materials or construction methods, and for additional requirements to be specified to suit a particular contract. Details of such alternatives or additional requirements applicable to this contract are contained in this part of the project specifications. It also contains some additional specifications required for this particular contract.

The number of each clause and each payment item in this part of the project specifications consists of the prefix B followed by a number corresponding to the number of the relevant clause or payment item in the standard specifications. The number of a new clause or a new payment item that does not form part of a clause or a payment item in the standard specifications and is included here, is also prefixed by B followed by a new number. The new numbers follow on the last clause or item number used in the relevant section of the standard specifications.

B2 SECTION 1100: DEFINITIONS AND TERMS

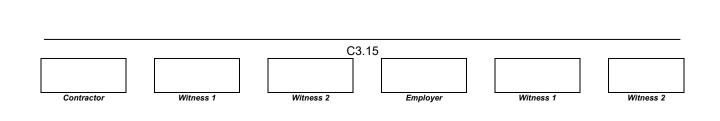

B1156 LABOUR-OPTIMISING CONSTRUCTION

ADD THE FOLLOWING NEW CLAUSE:

The cost effective employment of as great a portion of labour as is practically and technically feasible to produce a standard of construction as required by the Specifications, thus the economic substitution of plant and mechanical equipment in favour of available labour using hand tools, on condition that this method is not more expensive than the conventional construction practices.

		C	3.14			
Contractor	Witness 1	Witness 2		Employer	Witness 1	Witness 2

The number of each payment item in the schedule of quantities for the above clause will consist of the Prefix L1 forward by a number corresponding to the number of the relevant Clause or Payment Item in the Standard Specifications.

B3. SECTION 1200: GENERAL REQUIREMENTS AND PROVISIONS

B1202 SERVICES

ADD THE FOLLOWING NEW PARAGRAPH:

"Before work commences", the Contractor if required, shall contact all private owners or public authorities controlling services to allow them to protect, move or relocate a service as required, or to confirm that all such work has been completed.

No payment will be made for inconvenience to the contractor due to services crossing the site or any authority working on such services, nor will delays caused by such workings be accepted as a basis for claiming an extension of time for completing the works".

B1204 PROGRAMME OF WORK

(a) General requirements

Amend the word "network" in the fourth line of the first paragraph to read as "bar (Gantt) chart". *Add the following after the third paragraph:*

"The bar-chart programme to be provided by the contractor shall show the various activities in such detail as may be required by the engineer. Progress in terms of the programme shall be updated monthly by the contractor in accordance with the progress made by the contractor.

In compiling the programme of work, the contractor shall indicate and make due allowance for the following, as specified elsewhere in the contract documents:

The requirements regarding the accommodation of traffic and areas that may be occupied at any time for construction purposes (as indicated on the drawings and specified in Section 1500 of the specifications)

Requirements regarding the training of labourers and Emerging Contractors (EC's).

The requirements for work to be undertaken by labourers and work to be undertaken by EC's.

(b) Programme of work for rehabilitation work

Amend the word "network" in the fourth line of the second paragraph to read as "bar (Gantt) chart".

B1205 WORKMANSHIP AND QUALITY CONTROL

Add the following to the third paragraph:

"The engineer shall, however, undertake acceptance control tests for the judgement of workmanship and quality, without accepting any obligations vested with the contractor in terms of the contract with specific reference to quality of materials and workmanship. Such acceptance control test done by the engineer shall not relieve the contractor of his obligations to maintaining his own quality control system."

Add the following at the end of this clause:

"The engineer shall, for the purpose of acceptance control on products and workmanship, assess test results and measurements in accordance with the provisions of section 8300 of the standard specifications. Where small quantities of work are involved, a lot shall mean a full day's production for a specific item of work subject to acceptance control testing."

Contractor	Witness 1	ı	Witness 2	1	Employer	1	Witness 1	1	Witness 2

B1206 THE SETTING-OUT OF THE WORK AND PROTECTION OF BEACONS

Add the following:

"The contractor shall be responsible for the true and proper setting out of the Works and for the correctness of the position, levels, dimensions and alignment of all parts of the Works and for the provision of all necessary instruments, appliances and labour in connection therewith."

The Contractor shall take care that property beacons, trigonometrical survey beacons or setting-out beacons are not displaced or destroyed without the consent of the Engineer. Property beacons and trigonometrical survey beacons that have been displaced or destroyed shall be replaced by a registered land surveyor, who shall certify such replacement.

The cost of replacing all beacons displaced or destroyed during the course of the Contract without the consent of the Engineer shall be borne by the Contractor."

B1209 PAYMENT

(b) Rates to be inclusive

Add the following:

"VAT shall be excluded from the rates and provided for as a lump sum in the Summary of Bill of Quantities".

(e) Materials on the site

Add the following:

"In addition, the engineer may at his sole discretion also allow payments under "Materials on Site" in respect of any construction materials if stored off-site providing that:

- (a) The site selected for this purpose is approved by the engineer
- (b) Such land is physically separated from any production plant or operation
- (c) Only materials for use under this contract is stockpiled on such land
- (d) The contractor has provided proof of an agreement with the owner of such land that the owner has no claim whatsoever on any materials stockpiled on such land
- (e) Materials obtained by the contractor for or on behalf of emerging subcontractors (SMME's) shall remain the responsibility of the contractor after payment has been made in respect of materials on site."

B1215 EXTENSION OF TIME RESULTING FROM ABNORMAL RAINFALL

Add the following after the first paragraph of this clause:

"For the purposes of this contract, extension of time resulting from abnormal rainfall or other forms of inclement weather shall be determined according to the requirements of Method ii (critical-path method)."

Method (ii) (Critical path method)

Delete "(based on a five-day working week)" in the fifth and sixth lines of the second paragraph of the description of this method.

	C3.17										
Contractor	J	Witness 1		Witness 2	J	Employer	J	Witness 1	J	Witness 2	

Delete the last sentence of the second paragraph of the description of this method and replace with the following:

"The value of "n" shall be taken as two (2) working days per calendar month.

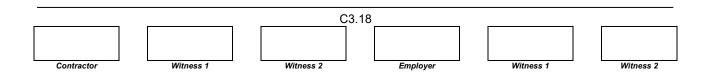

If normal rainy or inclement weather, resulting in delays, occurs for less than **two (2) working days** in any calendar month, the difference between the **two (2) working days** and the actual number of working days on which normal rainy or inclement weather occurred, shall be ignored and not accumulated for the duration of the contract period for the purposes of determining an extension of time due to normal rainy weather, nor due to any other reason.

Items of work on the critical path of the programme of work which are subject to climatic limitations, shall also be considered for extension of time if such items of work are delayed by e.g. cold weather, high winds or other inclement weather conditions.

In this regard, reference shall be made to weather limitations specified for the application of various bituminous products. However, for months during which seal-work cannot be undertaken in terms of the specifications, no extension of time shall be claimed for.

B1217 PROTECTION OF THE WORKS AND REQUIREMENTS TO BE MET BEFORE CONSTRUCTION OF NEW WORK ON TOP OF COMPLETED WORK IS COMMENCED

Add the following sub clause:

"(h) No concrete kerbing or concrete drains directly adjoining the bituminous surfacing shall be constructed prior to the completion of the bituminous surfacing."

B1207 NOTICES, SIGNS AND ADVERTISEMENTS

REPLACE THE FOURTH PARAGRAPH WITH THE FOLLOWING:

"The sign-boards shall be painted with the legend in English".

B1227: MONTHLY SITE MEETINGS

ADD THE FOLLOWING:

The Contractor or his authorized representative attending these meetings shall be a person who is empowered to take contractually binding decisions.

B1228: LEGAL PROVISIONS

ADD THE FOLLOWING NEW PARAGRAPHS:

"The Contractor shall be required to comply with the Occupational Health and Safety Act, 1993: Construction Regulations, 2003 as promulgated in Government Gazette No 25207 and Regulation Gazette No 7721 of 18 July 2003. Non-compliance with these regulations, in any way whatsoever, will be adequate reason for suspending the works.

The proposed type of work, materials to be used and hazards likely to be encountered on this Contract, and which cover the Employers' health and safety specifications (sub clause 4(1) of the regulations, are detailed in the Project Specifications, Schedule of Quantity and Drawings.

The Contractor shall in terms of sub clause 5(1) provide a comprehensive health and safety plan detailing his proposed compliance with the regulations, for approval by the Employer.

The Contractor shall at all times be responsible for full compliance with the approved plan as well as the Construction Regulations.

No extra over or additional payment shall be made to compensate the Contractor for compliance with these Regulations, and compensation shall be included in the rates tendered for the applicable items of work."

B1229: CEMENT

Where reference is made in this specification or the Standard Specifications to the cement specifications, e.g. SABS 471: Portland cement and rapid hardening Portland cement, it shall be replaced with the new specification:

The unit of measurement shall be the actual number of hours worked by labourers or foremen or an item of plant.

The tendered rates shall include full compensation for all cost items including overheads, head-office expenses and profits as described in sub clause 40(3) of the general conditions of contract and shall be subject to contract price adjustment as provided for in the contract.

The mark-ups on day work items in accordance with the Appendix to the Tender shall not be applicable on day work items listed in the bill of quantities in terms of the above specifications. In the event of new day work rates being requested for items not appearing in the bill of quantities, then the provisions of the general conditions of contract and the Appendix to the Tender shall apply.

Prior to the commencement of any work by the labourers described under item B18.01, the contractor must obtain written consent from the engineer regarding the classification and composition of all labourers in terms of "unskilled" and "skilled" labourers required for the work as ordered by the engineer."

B.2210 LAYING AND BEDDING OF PREFABRICATED CULVERTS

B.2210 (b)(I) Cast in situ invert slabs

"B2201 SCOPE

"All rectangular culverts with spans from 0,9m up to and including 2,4m shall be constructed with precast units.

The attention of the contractor is drawn to the fact that information given on the plans, longitudinal sections or drainage schedules may have to be altered to suit actual site conditions and, therefore, the contractor shall only construct these culverts after the engineer has verified the information on the drawings from detail surveys taken on site by the contractor as directed by the engineer. Precast units shall be ordered by the contractor from actual measurements of length acquired on the site and not from lengths stated in the drainage schedule or from the bill of quantities. No precast units shall be ordered until the engineer has satisfied himself that the proposed units have been manufactured to the required tolerances and loading standards. The engineer must be given the opportunity to load test units if he considers this necessary".

B2203 MATERIALS

(f) Skewed Ends

Delete the second and third paragraphs and substitute with the following:

"Precast portal and rectangular culverts placed on a skew shall be supplied with cast in situ skewed ends as shown on the drawings. In situ skew ends are to be constructed simultaneously with the wing walls and headwalls".

B2204 CONSTRUCTION METHODS

Add the following:

"In all cases where soft founding materials is classified as suitable for culvert bedding construction, the in situ material shall be ripped, moistened and compacted to 90% or 93% modified AASHTO density. The depth of preparation and compaction of founding material shall be as indicated on the drawings or as specified by the engineer. Allowance for measurement and payment for this work is made in the bill of quantities under this section."

The Generic Labour-intensive specification below is the same as SANS 1921-5, Construction and management requirement for works contracts- Part 5: Earthworks activities which are to be performed by hand and should be included in the scope of works without amendment or modification as set out below.

C3.26									
Contractor	Witness 1	Witness 2	Employer	Witness 1	Witness 2				

Scope

This specification establishes general requirements for activities which are to be executed by hand involving the following:

- a) Trenches having a depth of less than 1.5 metres
- b) Storm water drainage
- c) low-volume roads and sidewalks

Precedence

Where this specification is in conflict with any other standard or specification referred to in the Scope of Works to this Contract, the requirements of this specification shall prevail.

Hand excavateable material

Hand excavateable material is material:

- a) Granular materials:
- i) whose consistency when profiled may in terms of table 1 be classified as very loose, loose, medium dense, or dense; or
- ii) where the material is a gravel having a maximum particle size of 10mm and contains no cobbles or isolated boulders, no more than 15 blows of a dynamic cone penetrometer is required to penetrate 100mm:
- b) Cohesive materials:
- i) whose consistency when profiled may in terms of table 1 be classified as very soft, soft, firm, stiff and stiff / very stiff; or
- ii) where the material is a gravel having a maximum particle size of 10mm and contains no cobbles or isolated boulders, no more than 8 blows of a dynamic cone penetrometer is required to penetrate 100mm;

Note:

- 1) A boulder, a cobble and gravel is material with a particle size greater than 200mm, between 60 and 200mm.
- 2) A dynamic cone penetrometer is an instrument used to measure the insitu shear resistance of a soil comprising a drop weight of approximately 10 kg which falls through a height of 400mm and drives a cone having a maximum diameter of 20mm (cone angle of 60° with respect to the horizontal) into the material being used.

GRANULAR MA	TERIALS	COHESIVE MAT	ERIALS
CONSISTENCY	DESCRIPTION	CONSISTENCY	DESCRIPTION
Very loose	Crumbles very easily when scraped with a geological pick.	Very soft	Geological pick head can easily be pushed in as far as the shaft of the handle.
Loose	Small resistance to penetration by sharp end of a geological pick.	Soft	Easily dented by thumb; sharp end of a geological pick can be pushed in 30-40 mm; can be moulded by fingers with some pressure.
Medium dense	Considerable resistance to penetration by sharp end of a geological pick.	Firm	Indented by thumb with effort; sharp end of geological pick can be pushed in upto 10 mm; very difficult to mould with fingers; can just be penetrated with an ordinary hand spade.
Dense	Very high resistance to penetration by the sharp end of geological pick; requires many blows for excavation.	Stiff	Can be indented by thumb-nail; slight indentation produced by pushing geological pick point into soil; cannot be moulded by fingers.
Very dense	High resistance to repeated blows of a geological pick.	Very stiff	Indented by thumb-nail with difficulty; slight indentation produced by blow of a geological pick point.

Trench excavation

All hand excavateable material in trenches having a depth of less than 1,5 metres shall be excavated by hand.

Compaction of backfilling to trenches (areas not subject to traffic)

Backfilling to trenches shall be placed in layers of thickness (before compaction) not exceeding 100mm. Each layer shall be compacted using hand stampers a) to 90% Proctor density;

- b) such that in excess of 5 blows of a dynamic come penetrometer (DCP) is required to penetrate 100 mm of the backfill, provided that backfill does not comprise more than 10% gravel of size less than 10mm and contains no isolated boulders, or
- c) such that the density of the compacted trench backfill is not less than that of the surrounding undisturbed soil when tested comparatively with a DCP.

Excavation

All hand excavateable material including topsoil classified as hand excavateable shall be excavated by hand. Harder material may be loosened by mechanical means prior to excavation by hand.

The excavation of any material which presents the possibility of danger or injury to workers shall not be excavated by hand.

(d) Drainage of excavations

The contractor shall apply suitable, effective drainage and dewatering methods for preventing the ingress of water into the excavation and to keep them dry.

C3.28										
Contractor		Witness 1		Witness 2		Employer		Witness 1		Witness 2

Drainage measures, with the exception of pumping, shall be maintained until the backfilling has been completed. Between various construction stages, pumping may be interrupted in consultation with the engineer.

Any draining or pumping of water shall be done in a manner as will preclude the concrete or materials or any part thereof from being carried away.

Allowance for measurement and payment for dewatering and keeping dry of culvert excavations is made in the schedule in this section".

Delete sub clause B.2210 (b) (ii): "Prefabricated floor slabs."

B.2211 BACKFILLING OF PREFABRICATED CULVERTS

Change the last sentence in the fourth paragraph to read "90% or 93% as shown on the drawings or as directed by the engineer."

B2212: INLET AND OUTLET STRUCTURES, CATCHPITS AND MANHOLES

Concrete work

Add the following:

"The type of surface finish for in situ concrete in the culverts shall be as indicated on the drawings. Generally all exposed faces shall be of Class F2 formwork and faces covered by backfill shall be Class F1. The top of parapet walls and wing walls shall be finished to a Class U2 surface finish."

(h) Prefabricated inlet and outlet structures *Add the following:*

"The use of precast concrete inlets and outlets as described in clause 2212(h), shall not be allowed under any circumstances. Cast in situ concrete wing wall type inlets and outlets shall be constructed as indicated on the drawings and shall be in accordance with section 6000 of the Standard Specifications. Allowance for measurement and payment for wing wall type inlets and outlets is made in the schedule in this section."

No payment shall be made for formwork to the outside edges of invert slabs (closest to excavated face)."

Add the following to pay item 22.08:

"In addition to the requirements for measuring concrete backfill to rectangular culverts as specified for item 22.08, the following shall apply:

Concrete backfill shall be measured to the actual dimensions of the precast units, i.e. actual volumes between ribs and haunches shall be taken into account. For the purpose of calculating concrete backfill quantities, the horizontal dimensions of the concrete backfill on the outside of the culvert(s) (closest to excavated face), shall be taken as 100mm maximum irrespective of what type or make of precast portal is used or the actual width of the excavation. The width of the concrete backfill between portals in the case of multiple culverts, shall be taken as 80mm for precast units with a leg height of 1500mm and 100mm for precast units with a leg height exceeding 1500mm. The vertical dimensions, in both cases, shall be equal to the height of the portal".

Cutting of pipes shall only be paid for if the headwall of the wing walls are at such a skew angle in respect to the centre line of the pipes that cutting is required and where non-standard lengths are required. The maximum skew angle at which pipes are allowed to be cut shall be 30 degrees and the minimum length of pipe, measured along the shortest side, shall be 1,5m. "Classification of soft/hard materials as well as all quantities shall be agreed upon and finalised as the work progresses.

B10.SECTION 3100: BORROW MATERIALS

B3102 NEGOTIATIONS WITH OWNERS AND AUTHORITIES

RENUMBER THE EXISTING SUB-CLAUSE (c) AS SUB-CLAUSE (d) AND ADD THE FOLLOWING SUB-CLAUSE (c):

"Should borrow pits located on ground not owned by the Employer be required during the contract, all negotiations and compensation will be arranged by the Employer. Before the Contractor enters private property for the purpose of opening borrow pits, constructing access roads, temporarily occupying certain land or inspecting relevant areas, he shall notify the Engineer well in advance of such action being undertaken. If any negotiations with land owners are required, the Employer will enter into such negotiations and obtain the necessary permission".

B3104 OPENING AND WORKING BORROW PITS AND HAUL ROADS

(d) Excavating borrow material

ADD THE FOLLOWING:

"The Contractor shall at all times ensure that the removal of the material is carried out in such a manner that the stability of the exposed faces is not prejudiced and safe working conditions are maintained".

B11.SECTION 3300: MASS EARTHWORKS

B 3307 FILLS

ADD THE FOLLOWING SUB-CLAUSE:

"(k) Preparation of formation of existing road

(i) General

"Re-shaping" means performing minor earthworks and grading so that the final cross-section of the road complies with the typical cross-section for the type of road specified and the vertical alignment complies with the information provided by the Engineer.

			3.31				
Contractor	Witness 1	Witness 2		Employer	J	Witness 1	Witness 2

The Contractor shall supply the Engineer with a full set of cross-sections before commencing any construction activities in the road reserve.

(ii) Earthworks

The re-shaped formation shall be constructed true to line, level and cross-section as shown on the drawings or as directed by the Engineer.

The re-shaping process shall in general be carried out using material obtained from within the road reserve which is moved laterally and placed in the road formation. It is not the intention that material be moved longitudinally along the road over any significant distant during this process.

After re-shaping the road formation with material from within the road reserve and prior to any material being imported from borrow pits, the Contractor shall supply the Engineer with a set of cross-sections at the same positions as the original cross—sections for the purpose of calculating quantities.

Unsuitable or excess material from the road prism shall be removed and disposed of to spoil. Any shortfall in material shall be made up by importing suitable material.

Material in the road formation shall be placed, watered, mixed and compacted to a minimum of 90% of modified AASHTO density for gravel, or 95% for non plastic sand where >20% passes through the 0,075mm sieve, or 100% for sand where <20% passes through the 0.075mm sieve.

The Contractor's attention is specifically drawn to the requirement that only material approved by the Engineer may be used to bring the road up to the specified new formation (sub-base) level. To obtain better material characteristics in the fill, wearing course material from the existing road formation may be mixed with material obtained from the adjacent road reserve.

After the road has been brought up to the specified new formation level, whether material was imported, moved laterally in the road reserve or the existing profile was only re-shaped, a full set of cross-sections, on the same positions as the original set, shall be supplied to the Engineer. The Engineer must approve the new levels, profile and alignment before any importation of wearing course material shall be permitted.

During the re-shaping process, the road side drains and cut and fill slopes shall be trimmed and finished true to line, level and cross-section. No additional payment will be made for trimming and finishing of cut and fill slopes".

B33.20 Reshaping the road formation with material obtained from the road reserve and compaction to 90% of modified AASHTO density cubic meter (m³)

The unit of measurement is the cubic metre of material computed by the method of average end areas from levelled cross-sections taken along the ground line after clearing, with the final cross-sections, before importation of materials from borrow pits, superimposed thereon at intervals not exceeding 20m along the centre line of the road.

The tendered rate shall include full compensation for the work involved in reshaping the road to the correct profile and cross-section, benching, terracing, selecting material from the road prism, watering, mixing and compacting to a minimum of 90% of modified AASHTO density for gravel material, or 95% for non-plastic sand where >20% passes through the 0,075mm sieve, or 100% for sand where <20% passes through the 0,075mm sieve, and for trimming and finishing of the roadside drains and cut and fill slopes.

B 3401 SCOPE

ADD THE FOLLOWING:

"This section also covers the reprocessing or replacement of existing pavement layers over part of or over the full road width.

B3403 CONSTRUCTION

ADD THE FOLLOWING SUB-CLAUSE:

"(f) Temporary stockpiling of material

The Contractor shall plan his activities so that materials excavated from borrow areas and cuttings can be directly transported to and placed at the designated points.

The temporary stockpiling of material will not be paid for separately unless instructed by the Engineer, and full compensation will be deemed to have been included in the rates tendered for the various payment items for work in which the material is to be used".

B3406 ROUTINE INSPECTION AND TESTS

"Test results and measurements will be assessed in accordance with the provisions of section 8300".

<u>C3.4.2.17 SECTION 5200: GABIONS</u> <u>B.5201 SCOPE</u>

Add the following paragraph

"This section also covers the removal, dismantling and stacking of existing gabion work, and the reuse of these materials where authorised by the engineer."

B 5203: CONSTRUCTION OF GABION CAGES

(a) General

Add the following new sub-clause:

"(iii) Reno mattresses or similar may be used as alternative to gabion boxes. These Reno mattresses are to be manufactured of 80mm x 100mm mesh (2,5mm diameter wires, diaphragm spacing 0,6m).

B 5204: CONSTRUCTING GABIONS

(t)	Assemb	١	y
----	---	--------	---	---

(c)

Delete and substitute with:

- (c) Assembly, erection and stretching
- (i) Assembly

"Prior to assembly, the gabion material shall be opened out flat on the ground and stretched to remove any kinks and bends. The gabion boxes shall then be assembled individually by raising the sides, ends and diaphragms ensuring that all creases are in the correct position and that the tops of all four sides are even. The four corners of the gabion boxes shall be laced first followed by the edges of internal diaphragms to the sides. In all cases lacing shall commence at the top of the box by twisting the end of the lacing wire around the selvages. It shall then be passed round two edges being joined, through each mesh in turn and securely tied off at the bottom. The ends of all lacing wire shall be turned to the inside of the box on completion of each lacing operation.

(ii) Erection

Only assembled boxes, or groups of boxes, shall be positioned in the structure. The side, or end, from which work is to proceed, shall be secured to either completed work or by rods or stakes driven into the ground at the corners. These must be secured and reach at least to the top of the gabion box. Further gabions shall then be positioned in the structure as required, each being securely laced to the preceding one at all corners and diaphragm points.

(iii) Stretching

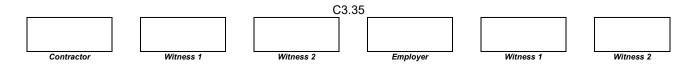

On completion of erection of a suitable length of gabion, the gabion boxes shall be stretched using a wire strainer or winch of at least one ton capacity firmly secured to the free end of the assembled gabion boxes. Whilst under tension the gabion boxes shall be securely laced along edges (top, bottom and sides) and at diaphragm points, to all adjacent boxes and shall thereafter be filled."

(d) Rock filling

Add the following new sub-sub-clause:

(iii) General

"Filling shall be carried out only whilst gabion boxes are under tension. Filling material shall consist of rock of size not less than 120mm and not greater than 250mm so placed to produce a neat face and line with a minimum of voids. Internal horizontal bracing wire shall be provided at 500mm vertical centres or such spacing to ensure a ratio of four to every 1m3 of filling. These bracing wires shall be wrapped around two mesh wires and extended from front to back so positioned to ensure a neat face and line free of excessive bulges and depressions. Gabion boxes shall be filled in stages and horizontal bracing wires inserted as filling is brought up. Similar bracing wires used vertically shall be provided in 0,5mm deep gabions at 330mm horizontal centres where waterfalls directly onto gabions or where a neat face is required.

Tension on the gabion boxes shall be released only when sufficiently full to prevent the mesh from slackening. Gabion boxes shall be overfilled by 20 to 50mm above their tops to allow subsequent settlement of the filling."

Add the following new sub-clauses:

(e) Final wiring

"Closing and wiring down of lids shall proceed as soon as possible after filling operations and certainly in the likelihood of storms or floods during construction. The wiring down shall consist of wrapping around wire at such intervals as required or specified. Lids shall be stretched tight over the filling with bars and wired down securely through each mesh along all edges, ends and diaphragms. The ends of all tying and bracing wires shall be turned into the gabion box on completion of all lacing operations. Tightness of mesh, well packed filling and secure lacing is essential in all structures."

(f) Removal, dismantling and stacking of gabions

"Existing gabions, either damaged or not, that require to be removed or moved to a new location shall be dismantled. Material not required for re-assembly or unsuitable for re-use shall be neatly stacked at approved locations in accordance with the engineer's instructions. Payment will be made only for gabions removed in accordance with the written instruction of the engineer.

Where gabions require moving, or as declared suitable by the engineer are re-usable, the contractor shall re-use all the material, plus supply such new materials as may be required to re-assemble the gabion again to the standard specification for new gabions."

B.5205 MEASUREMENT AND PAYMENT

C3 Scope of Work

C 01 SCOPE

This Specification covers the provisions and requirements relating to the provision of the temporary workforce.

C 02 INTERPRETATIONS

C 02.01 Supporting documents

The Tender Rules, Conditions of Contract, Standard and Project Specifications, Drawings and statutory minimum requirements relating to the employment and remuneration of labour shall *inter alia* be read in conjunction with this Specification.

C 02.02 Definitions and abbreviations

For the purposes of this specification, the definitions given in the Conditions of Contract, the Standard Specifications and the Project Specifications, together with the following additional definitions shall, unless the context dictates otherwise, apply:

- (a) "Key Personnel" means all contracts managers, site agents, materials and survey technicians, trainers, supervisors, foremen, skilled plant operators, artisans and the like, and all other personnel in the permanent employ of the Contractor or Subcontractor who posses special skills and/or who play key roles in the Contractor's or Subcontractor's operation
- (b) "Project Committee" means a committee consisting of the Employer, the Engineer, the Contractor, (or their nominated representatives) as well as representatives of the temporary workforce, which is convened from time to time at the discretion of the Engineer, for the purposes of acting as an avenue for effective communication and liaison between all the parties referred to, in all matters pertaining to the Contract
- (c) "Subcontractor" means any person or group of persons in association, or firm, or body corporate (whether formally constituted or otherwise) not being the Contractor, to whom specific portions or aspects of the Works are sublet or subcontracted by the Contractor in accordance with the provisions of the Contract
- (d) "Worker" for the purposes of this Specification means any person, not being one of the Contractor's key personnel, nor any key personnel of any Subcontractor, who is engaged by the Contractor, a Subcontractor or the Employer to participate in the execution of any part of the Contract Works and shall include unskilled labour, semi-skilled and skilled labour, clerical workers and the like
- (e) "Workforce" means the aggregate body comprising all workers and shall, unless the context dictates otherwise, include the workforces of the Contractor and all Subcontractors
- (f) "Liaison Officer" means a representative from the temporary workforce, duly elected by them, to act on their behalf and through whom all matters pertaining to the temporary workforce can be channelized.

C 02.03 Status

Where any provisions or requirements of this Specification are in conflict with anything elsewhere set out in the Contract, the provisions and requirements of this Specification shall take precedence and prevail.

C3 Scope of Work

C 03 PERMITTED SOURCES OF TEMPORARY WORKERS

The Contractor shall as far as possible make optimum use of the human resources outside his own workforce and the workforces of all subcontractors. The temporary workforce which is to be used in the execution of the Works in terms of Part A may consist of the workers of various communities, and shall not be bound to one particular community.

C 04 EMPLOYMENT RECORDS TO BE PROVIDED

- (a)The Contractor shall maintain accurate and comprehensive records of all workers engaged on the Contract and shall provide the Engineer at monthly intervals from the commencement of the Contract, with interim records substantiating the actual numbers of employment opportunities which have been generated to date and the amounts actually paid in respect thereof. Such interim records shall be in a format approved by the Engineer.
- (b)The Contractor shall, on completion of the Contract, and as a pre-requisite event to the release of any retention money in terms of the Conditions of Contract, provide the Engineer with copies of the Terms of Employment as well as independently audited documentary evidence of the total number of temporary and permanent employment opportunities actually generated during the Contract.

C 05 VARIATIONS IN WORKER PRODUCTION RATES

Notwithstanding anything to the contrary as may be stated in or inferred from any other provision of this Contract, the Contractor shall not be entitled to any additional payment or compensation whatever, in respect of any differences as may result between the production rates actually achieved by workers in the course of the execution of the Contract Works and those production rates on which he has based his tender.

C 06 TRAINING OF THE TEMPORARY WORKFORCE

- (a) Selected members of the workforce are to be provided with structured training in accordance with the provisions of Part D.
- (b) The Contractor shall make all necessary allowances in his programme of work to accommodate and facilitate the delivery of such structured training and shall comply fully with the requirements of Part D.
- (c) The provision of structured training as described in Part D shall not relieve the Contractor of any of his obligations in terms of the Conditions of Contract and the Contractor shall remain fully liable for the provision, at his own cost, of all training of the workforce, additional to that as provided for in Part D, as may be necessary to achieve the execution and completion of the works strictly in accordance with the provisions of the Contract.

C 07 RECRUITMENT AND SELECTION PROCEDURES

C 07.01 the Contractor shall be fully responsible for the recruitment and selection of workers to constitute the temporary workforce.

C 07.02 The Contractor shall advise the Engineer in writing of the numbers of each category of temporary worker which he requires, together with the personal attributes which he considers desirable that each

C3.44											
Contractor		Witness 1		Witness 2		Employer		Witness 1	J	Witness 2	

category of worker shall posses (taking due cognisance of the provisions of the Contract relating to training).

C 07.03 the Contractor shall, at his own cost, take all necessary actions to advertise within the communities comprising the personnel resources, the fact that temporary employment opportunities exist and the time and place where recruiting will occur.

C 07.04 the Contractor shall record in writing, the details of all persons applying for employment, including *inter alia*:

- (a) Name, address, age and sex
- (b) Marital status and number of dependants
- (c) Qualifications and previous work experience (whether substantiated or not)
- (d) Period since last economically active
- (e) Preference for type of work or task.
- **C 07.05** the Contractor shall make his selection of workers from amongst the applicants, taking due cognisance of his requirements for the workforce and the provisions of the contract in regard to the provision of training to the workforce and in accordance with the following principles:
- (a) No potential temporary worker shall be precluded from being employed by the Contractor on the execution of the Works, by virtue of his lack of skill in any suitable operation forming part of the Works, unless -
- (i) All available vacancies have been or can be filled by temporary workers who already posses suitable skills, or
- (i) The Time for Completion allowed in the Contract, or the remaining portion of the Contract Period (as the case may be) is insufficient to facilitate the creation of the necessary skills.
- (b) Preference shall be given to the unemployed and single heads of households.
- (c) The Contractor shall, in so far as is reasonably practicable, give priority to accommodating the applicants' expressed preferences regarding the types of work for which they are selected.
- (d) The selection process shall not be prejudicial to youth (over the age of fifteen years) and women.
- **C 07.06** After making his selection, the Contractor shall advise the Engineer thereof, in writing and the Engineer shall, without undue delay, ratify the Contractor's selection.
- **C 07.07** The provisions of this clause shall apply *mutatis mutandis* in respect of the selection of additional or replacement members of the workforce as may be necessary from time to time during the Contract.
- **C 07.08** the Contractor shall, after selecting his temporary workforce, arrange at his own cost for the appointment of the Liaison Officer as representative of the workforce to act on their behalf with regards to all matters pertaining to the workforce."

C 08 TERMS AND CONDITIONS PERTAINING TO THE EMPLOYMENT OF THE TEMPORARY WORKFORCE

C 08.01 All temporary workers engaged in accordance with the provisions of Part A of the Project Specifications, shall be employed on the terms and conditions of employment as are consistent with those as set out in this Contract. The Contractor shall implement and adhere strictly to such terms and conditions relating to the employment of the temporary workforce, and subject only to the provisions of this Contract, shall not employ any temporary worker on terms and conditions which are less favourable to the worker or inconsistent with the standards and norms generally applicable to temporary workers in the Civil Engineering Industry and applicable to the particular area.

C 09 LABOUR RELATIONS AND WORKER GRIEVANCE PROCEDURES

C 09.01 the Contractor, as the Employer of the workforce, shall be fully responsible for the establishment and maintenance at his own cost, of satisfactory labour relations on site and the resolution of all grievances of temporary workers as may occur.

C 09.02 The Contractor shall at all times adhere to the accepted norms and standards of labour relations prevailing generally in the Civil Engineering Construction Industry and shall conduct himself in a fair and reasonable manner, within the constraints as may be imposed upon him by the terms of the Contract.

C 09.03 In the event of any temporary worker engaged by the Contractor in terms of the Contract, being aggrieved with regard to his Terms of Employment, working conditions and training, he shall have the right, at his discretion, to be supported in any inquiry or disciplinary hearing or investigation instituted by the Contractor in terms of Sub clause C 09.02 above, by one member of the temporary workforce and one member of the Project Committee, which persons shall be nominated by the worker.

C 09.04 In the event of any grievance not being satisfactorily resolved through the application of normal dispute resolution procedures in accordance with Sub clauses C 09.02 and C 09.03, then either the Contractor or the worker concerned may require that the matter be referred to the Project Committee for further consideration, with a view to facilitate the resolution thereof.

C 10 THE SUBCONTRACTORS' WORKFORCES

C 10.01 The provisions of this Part C shall apply *mutatis mutandis* to the workforces employed by all subcontractors engaged by the Contractor and the Contractor shall be fully responsible for ensuring, at his own cost, that the terms of every subcontract agreement entered into are such as to facilitate the application of these provisions in respect of the workforces of all subcontractors.

C 10.02 The Contractor shall at his own cost and to the extent necessary, assist and monitor all subcontractors in the application of the provisions of this Specification, and shall, in terms of the Conditions of Contract, remain fully liable in respect of the acts, omissions and neglects of all subcontractors, in respect of the application of the provisions of this Specification.

DRAFT

POLICY SUPPLY CHAIN MANAGEMENT

CHAPTER 1

1. INTRODUCTION

A Green Paper on Public Sector Procurement Reform in South Africa was published in April 1997. The Green Paper recognized that public sector procurement could be used by government as a mechanism to also achieve certain broader policy objectives such as black economic empowerment, local economic development spin-offs for small and medium sized business, skills transfer and job creation. To achieve this, institutional and economic reform was necessary within two broad themes, namely, to establish principles of good governance in the area of supply chain management and to introduce a preference system to achieve certain Socio-economic policy objectives.

This document is to serve as a both a policy guideline and as a general user manual for the personnel of the BLM in which the policy and directives with regard to supply chain management are made known. This policy therefore addresses the following as required by the Local Government: Municipal Finance Act, 2003 and the Preferential Procurement Regulations of 2004, the Broad-Based Black Economic Empowerment Act (Act 53 of 2003) and the Draft Supply Chain Management Regulations from National Treasury (3 May 2005):

- Procurement of goods and services;
- Disposal of goods no longer needed;
- Selection of contractors to provide assistance in the provision of municipal services otherwise than in circumstances where Chapter 8 of the Systems Act applies; and
- Selection of external mechanisms referred to in section 80(1)(b) of the

Systems Act

This policy does not apply if the municipality contracts with another organ of state for-

- Provision of goods or services to the municipality;
- The provision of a municipal service or assistance in the provision of a municipal service; or
- The procurement of goods and services under a contract secured by that other organ of state, provided that the relevant supplier has agreed to such procurement.

4. LEGISLATIVE ENVIRONMENT & REGULATORY FRAMEWORK

4.1 THE CONSTITUTION

In establishing a supply chain management policy document, the Blouberg local municipality must produce a document that complies with section 217 of the Constitution of the Republic of South Africa, 1996 Act 208 of 1996) which reads as follows:

- (1) When an Organ of State in the national, provincial or local sphere of government, or any other institution identified in national legislation, contracts for goods and services, it must do so in accordance with a system which is fair, equitable, transparent, competitive and cost-effective.
- (2) Subsection (1) does not prevent the Organs of State or institutions referred to in that subsection from implementing a procurement policy providing for-
- (a) categories of preference in the allocation of contracts; and (b) the protection or advancement of persons, or categories of persons, disadvantaged by unfair discrimination.
- (3) National legislation must prescribe a framework within which the policy referred to in subsection (2) must be implemented.

4.2 THE MUNICIPAL SYSTEMS ACT

The "Municipal Systems Act 2000 (Act 32 of 2000) requires that municipalities assess, according to specific criteria and processes, whether to provide municipal services internally or externally by way of service delivery agreements. This Act stipulates the requirements for service delivery agreements through competitive bidding selection and pre-qualification processes which-

- Are competitive, fair, transparent, equitable and cost-effective,
- Allow all prospective service providers to have equal and simultaneous access to information relevant to the bidding process:
- Minimise the possibility of fraud and corruption; and
- Make the municipality accountable to communities, residents and role-players about progress with selecting a service provider and the reasons for any decision in this regard; and
- Take into account the need to promote the empowerment of small and emerging enterprises.

4.3 THE PREFERENTIAL PROCUREMENT POLICY FRAMEWORK ACT

The Preferential Procurement Policy Framework Act, (Act No. 5 of 2000) and its regulations are applicable to local government. It provides that BLM shall implement a preference system in the allocation of contracts for categories of service providers to advance the interest of persons disadvantaged by unfair discrimination. However, it must be applied without compromising or limiting the quality, coverage, cost and developmental impact of the services.

4.4 THE LOCAL GOVERNMENT: MUNICIPAL FINANCE MANAGEMENT ACT, 2003 (ACT 56 OF 2003)

This Act and Chapter 11 in particular deals with supply chain management in detail and it is essential that it is strictly adhered to by the municipality in order to achieve the objectives as set out in this document. It is compulsory for a municipality to have a supply chain management policy to give effect to the relevant provisions of the Act.

The Municipal Finance Management Act, 2003 (Act 56 of 2003) provides that the municipal supply chain management shall comply with a regulatory framework that must cover at least the following:

- The range of supply chain management processes that will be used including tenders, quotations, auctions and other types of competitive bidding.
 - When a particular type of process must be used.
 - Procedures and mechanisms for each type of process.
- Procedures and mechanisms for more flexible processes where the value of a contract is below a prescribed amount.
- Open and transparent pre-qualification processes for tenders or other bids.
- Competitive bidding processes in which only pre-qualified persons may participate.
 - Bid documentation, advertising of and invitations for contracts.

Procedures and mechanisms for-

- The opening, registering and recording of bids in the presence of interested persons;
 - The evaluation of bids to ensure best value for money;
 Negotiating of final terms of contracts; and
 - The approval of bids.

2.22 ACQUISITIONING EVALUATION PROCESS

2.22.1 EVALUATION CRITERIA

(a) The decision of awarding a contract to a prospective provider must be based on a determination of which bidder has the best likelihood of successfully completing the contract at the best value to the BLM.

Proposal evaluation is the process of evaluating both the proposal and the bidder to determine whether the bidder by means of that proposal can successfully accomplish the contract. It forms the basis of choosing between competing offers.

- (b) Evaluation factors (criteria) are those aspects of a proposal that will be ☐ ☐Local business should receive preference ☐ ☐Technical requirements of personnel.
 - · Perceived ability to render the services required.
 - Flexibility (to adapt to client requirements).
 - Availability to meet deadlines.

2.22.2 PREFERENCE POINT SYSTEM AND BROAD-BASED BLACK ECONOMIC EMPOWERMENT

- (a) In the acquisitioning of local goods and services this policy will provide for categories of preference in terms of Section 5 of the Preferential Procurement Policy Framework Act 2000 (Act No.5 of 2000) and applicable Preferential Procurement Regulations and Schedules published in the Government Gazette (Notice 2174 of 2004).
- (b) The preference point system as detailed below will be followed. No system will be applied in respect of bids/acquisitioning with a Rand value of less than R30 000 per legislation.

2.22.3 THE 80/20 PREFERENCE POINT SYSTEM FOR ACQUISITIONING OF GOODS AND/OR SERVICES UP TO A RAND VALUE OF R 50 000 000.00

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2017

(a)The following formula must be used to calculate the points for price in respect of competitive bids/price quotations with a Rand value equal to, or above R30 000 and up to a Rand value of R50 000 000.

Where

Ps = Points scored for comparative price bid / offer under consideration

Pt = Comparative price of bid / offer under consideration

Pmin = Comparative price of lowest acceptable bid / offer.

- (b) The balanced scorecard measuring Broad-Based Black Economic Empowerment prescribed by the National Treasury must form part of the evaluation criteria of all bids. (See Annexure SCM 1 and Annexure SCM 2)
- (c)A maximum of 20 points may be awarded to a bidder for achieving governments procurement related socio-economic objectives. The total percentage scored for Broad-Based Black Economic Empowerment will be converted to a point

out of a maximum of 20 points. No points will be awarded for achieving Governments Broad-Based Black Economic Empowerment objectives if the total percentage scored for Broad-Based Black Economic Empowerment is less than the prescribed minimum.

- (d)The points scored by a bidder in respect of the objectives above on Broad-Based Black Economic Empowerment must be added to the points scored for price.
- (e)Only the bid with the highest number of points scored may be selected.

2.22.4 THE 90/10 PREFERENCE POINT SYSTEM FOR ACQUISITIONING OF GOODS AND/OR SERVICES WITH A RAND VALUE ABOVE R 50 000 000.00

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2017

(a) The following formula must be used to calculate the points for price in respect of competitive bids with a Rand value above R 50 000 000.

Where

Ps = Points scored for comparative price of bid under consideration

Pt = Comparative price of bid under consideration

Pmin = Comparative price of lowest acceptable bid.

(b)The balanced scorecard measuring Broad-Based Black Economic Empowerment prescribed by the National Treasury must form part of the evaluation criteria of all bids. Where the Minister of Trade and industry, in terms of section 9 of the Broad Based Black Economic Empowerment Act, No 53 of 2003, gazetted a code of good practice for a particular sector, the scorecard contained in the gazetted code of good practice must be utilised in the evaluation process. In the absence of such code of good practice for a particular sector, the balanced scorecard prescribed by National Treasury must form part of the evaluation criteria.

(See Annexure SCM 1 and Annexure SCM 2)

(c)A maximum of 10 points may be awarded to a bidder for achieving Governments procurement related socio-economic objectives. The total percentage scored for Broad-Based Black Economic Empowerment will be converted to a point out of a maximum of 10 points. This will be calculated by multiplying the total percentaged scored by 10. No points will be awarded for achieving Governments Broad-Based Black Economic Empowerment objectives if

the total percentage scored for Broad-Based Black Economic Empowerment is less than the prescribed minimum.

- (d)The points scored by a bidder in respect of the objectives above on Broad-Based Black Economic Empowerment must be added to the points scored for price.
- (e)Only the bid with the highest number of points scored may be selected.

2.22.5 THE 80/20 PREFERENCE POINT SYSTEM FOR THE SALE AND LETTING OF ASSETS UP

TO A RAND VALUE OF R 50 000 000

(a) The following formula must be used to calculate the points for price in respect of competitive bids / price quotations with a Rand value equal to, or above R30 000 and up to a Rand value of R 50 000 000 and which relate to the sale and letting of assets.

Ps = Points scored for price of bid / offer under consideration

Pt = Price of bid / offer under consideration

Ph = Price of highest acceptable offer

- (b) The balanced scorecard measuring Broad-Based Black Economic Empowerment prescribed by the National Treasury must form part of the evaluation criteria of all bids. (See Annexure SCM 1 and Annexure SCM 2)
- (c) A maximum of 20 points may be awarded to a bidder for achieving Governments procurement related socio-economic objectives. The total percentage scored for Broad-Based Black Economic Empowerment will be converted to a point out of a maximum of 20 points. No points will be awarded for achieving Governments Broad-Based Black Economic Empowerment objectives if the total percentage scored for Broad-Based Black Economic Empowerment is less than the prescribed minimum.
- (d) The points scored by a bidder in respect of the objectives above on Broad-Based Black Economic Empowerment must be added to the points scored for price.
- (e) Only the bid with the highest number of points scored may be selected.

2.22.6 THE 90/10 PREFERENCE POINT SYSTEM FOR SALE AND LETTING OF ASSETS WITH A RAND VALUE ABOVE R 50 000 000.

(a)The following formula must be used to calculate the points for price in respect of bids with a Rand value above R 50 000 000 and which relate to the sale and letting of assets.

Blouberg Local Municipality's SCM Policy for 2020/21 Financial Year

Ps = Points scored for price of bid under consideration

Pt = Price of bid under consideration

Ph = Price of highest acceptable bid

- (b) The balanced scorecard measuring Broad-Based Black Economic Empowerment prescribed by the National Treasury must form part of the evaluation criteria of all bids. (See Annexure SCM 1 and Annexure SCM 2)
- (c)A maximum of 10 points may be awarded to a bidder for achieving Governments procurement related socio-economic objectives. The total percentage scored for Broad-Based Black Economic Empowerment will be converted to a point out of a maximum of 10 points. This will be calculated by multiplying the total percentage scored by 10. No points will be awarded for achieving Governments Broad-Based Black Economic Empowerment objectives if the total percentage scored for Broad-Based Black Economic Empowerment is less than the prescribed minimum.
- (d)The points scored by a bidder in respect of the objectives above on Broad-Based Black Economic Empowerment must be added to the points scored for price.
- (e)Only the bid with the highest number of points scored may be selected.

2.22.7 EVALUATION OF CONSULTANTS OR OTHER PROFESSIONAL SERVICES ON FUNCTIONALITY.

(a) the following formula shall be used to evaluate consultants based on Functionality

Ps = SO X AP MS

Ps = Points scored for functionality

SO= points awarded by a panel member

MS= Maximum weight

AP = Percentage points for functionality

(b) the following formula shall be used to evaluate points scored for price for Consultants

Ps = Pmin X AP Pt

Ps = points scored for price

Pmin= lowest acceptable bid price

Pt = bid price under consideration

AP = Total score for functionality

2.22.8 80/20 POINT SYSTEM FOR EVALUATION OF CONSULTANTS

(a) the following formula shall be used to determine the points scored by bidders through 80/20 system

Ps = 80 (1 + HS - RS) RS

Ps = Points scored

HS = Highest acceptable points for sum of points for price and Functionality.

RS = sum of points scored for price and functionality for bid under

Consideration

2.22.9 STIPULATION OF PREFERENCE POINT SYSTEM TO BE USED

(a) The Blouberg Municipality must, in the bid documents, stipulate the preference point system which will be applied in the adjudication of bids.

2.22.10 EVALUATION OF BIDS ON FUNCTIONALITY (QUALITY) AND PRICE, INCLUDING WHEN CONSULTANTS ARE APPOINTED

- (a) The municipality must, in bid documents, indicate if, in respect of a particular bid invitation, bids will be evaluated on functionality and price.
- (b)The total combined points allowed for functionality and price may, in respect of bids / offers with an estimated Rand value equal to or below, R 50 000 000, not exceed 80 points.
- (c)The total combined points allowed for functionality and price may, in respect of bids / offers with an estimated Rand value above, R50 000 000, not exceed 90 points.
- (d)When evaluating the bids contemplated in this item, the points for functionality must be calculated for each individual bidder,
- (e)The conditions of bid may stipulate that a bidder must score a specified number of points for functionality to qualify for further adjudication
- (f)The points for price, in respect of a bid which has scored the specified minimum number of points contemplated above must, subject to the application of the evaluation system for functionality and price, be established separately and be calculated in accordance with the other provisions in this section 9.4
- (g)The number of points scored for achieving Governments Broad-Based Black Economic Empowerment objectives must be calculated separately and must be added to the points scored for functionality and price.
- (h)Only the bid with the highest number of points scored may be selected.
- 2.22.11 AWARD OF CONTRACT TO BIDS NOT SCORING THE HIGHEST NUMBER OF POINTS

(a) Despite the above regulations, a contract may, on reasonable and justifiable grounds, be awarded to a bidder that did not score the highest points. Preference calculations or decisions, made during proposal / bid evaluations or candidate selection through interviews, shall be clear and documented. The specific goals must be measurable and quantifiable and must be monitored in the execution of the contract.

2.22.12 CANCELLATION AND RE-INVITATION OF BIDS

- (a) In the event that, in the application of the 80/20 preference point system, as stipulated in the bid documents, all bids received exceed the estimated Rand value of R 50 000 000, the bid invitation must be cancelled.
- (b) In the event that, in the application of the 90/10 preference point system, as stipulated in the bid documents, all bids received are equal to, or below R 50 000 000, the bid invitation must be cancelled.
- (c)The municipality must, if the bid invitation has been cancelled in terms of the above, re-invite bids and must, in the bid documents, stipulate the correct preference point system to be applied.
- (d)The Blouberg Municipality may, prior to the award of a bid, cancel the bid if;
- (i) Due to changed circumstances there is no longer a need for the goods, works or services offered, or
- (ii) Funds are no longer available to caver the total envisaged expenditure; or
- (iii) No acceptable bids are received.

2.22.13 THE SPECIFIC ACTIVITIES, WHICH MAY BE STIPULATED TOWARDS ACHIEVING SPECIFIC GOALS AS PER SECTION 17 OF THE REGULATIONS, ARE AS FOLLOWS:

(a)

- (i) The promotion of South African owned enterprises;
- (ii) The promotion of export orientated production to create jobs;
- (iii) The promotion of SMMEs;
- (iv) The creation of new jobs or the intensification of labour absorption.
- (b) Enterprises located within blouberg municipality include:
- (i) Suppliers who have offices within blouberg municipality;
- (ii) In case of emerging suppliers with no offices their address of registered office must be within blouberg municipality and the individual owners of entity must be the residents of blouberg municipality.

2.22.16 INTERVIEW SELECTION CRITERIA

(a) If the selection is going to be made through interview, the selection criteria should be known beforehand (it could be in the form of evaluation criteria and weights). During the interview the members of the interview panel should assign a score to each criteria, and these scores are then added to arrive at a total score. This total score is then used to assist in making the selection decision.

2.23 OTHER FACTORS IN THE ACQUISITIONING PROCESS 2.23.1 TAX CLEARANCE CERTIFICATE

- (a) It is a specific requisite that on all projects, a Tax Clearance Certificate, issued by the SA Revenue Services for the bidding company/entity is to be submitted as part of the bid documentation.
- (b) No contract may be awarded to a person who has failed to submit an original Tax Clearance Certificate from the South African Revenue Service ("SARS") certifying that the taxes of that person to be in order or that suitable arrangements have been made with SARS.

2.23.2 ACCESS TO BIDDING INFORMATION

- (a) To ensure complete transparency in the bidding process, bid documents should provide details of adjudication criteria. This will be especially important in bids where price will no longer be the only criteria in awarding bids.
- (b) The BLM will assist with the compilation and dissemination of bidding and related information in a simplified and uncomplicated format.
- (c)Bid results and awards must be made available to bidders when requested. This process, which will ensure transparency, will also enable bidders to evaluate their performance and competitiveness for future bids.
- (d)BLM will be required to display both the bids and awards in the offices on for example bid notice boards. This place of display should be accessible to the public even after normal working hours. This will enable the information to reach the local community as effectively as possible. Local councillors are responsible to further disseminate information to their constituencies.

2.23.3 UNIFORMITY IN BID PROCEDURES, POLICIES AND CONTROL MEASURES

- (a) Uniformity in bid procedures and control measures should be enhanced to ensure efficiency and effectiveness in procurement/ acquisitioning management. This can be accomplished through:
- (b) The implementation of a uniform acquisitioning policy that must address at least the following:
- (i) The range of processes to be used for example tender (local/national), quotation (formal/informal) auction etcetera
- (ii) Procedures and mechanisms for each type of process

- (iii) When a particular type of process must be used
- (iv) Categorisation of processes relating to value of transactions (financial thresholds)
- (v) Open and transparent pre-qualification processes
- (vi) Ensuring that bid procedures are easy to interpret, clear, cost-effective, inexpensive, quick, transparent and free of corruption;
- (vii) A system of supply chain management, which is uniformly applied by all organs of State
- (viii) Proper rules pertaining to unsolicited bids (sect. 113 of the MFMA)

2.23.4 GENERAL ACQUISITIONING PRINCIPLES

- (a) Irrespective of who will be responsible for the acquisitioning process, the general principles of being fair, equitable, transparent, competitive and cost-effective will apply to, and will be the guiding principles for all stakeholders during all activities in the process.
- (b) This entails a proper definition of what is required, adherence to the prescribed selection and evaluation process, as well as proper implementation, monitoring and evaluation.

2.23.5 LETTERS OF ACCEPTANCE

- (a) Letters of acceptance shall be issued by the Head of Procurement once a tender has been approved by a person/structure in accordance with the delegated authority. Such letters may also be signed by the relevant delegated authority.
- (b) Letters of acceptance must be accurate, unambiguous, complete and contain detail of discounts that the BLM may qualify for and must reflect the approval accurately. Such letters are to be handed to the tenderer against signature or sent by registered post as soon as possible after it has been approved and before the validity period expires. A copy must also be made available to the Finance division in order that this commitment can be captured in their records. The Corporate/Admin. Department, who is responsible for the management of the administration of contracts, must also be furnished with a copy.
- (c) A formal contract may also be concluded and must display the same principles than those contained in a letter of acceptance.
- (d) New conditions that did not form part of the original tender documentation, may not be included in a letter of acceptance/contract.

2.23.6 PUBLISHING RESULTS

- (a) As the letter of acceptance/contract concludes the process of competing for the business, it is important that the final results also be publicized.
- (b) Bid results must at least be displayed in the offices of the BLM on for example bid notice boards.

2.23.7 **REPORTING**

(a) The Accounting Officer should report, in the prescribed formats and frequencies prescribed by the relevant Treasury, management information to the executive authorities and the National and relevant treasuries.

2.24 POWERS OF ACQUISITIONING STRUCTURES/ INDIVIDUALS 2.24.1 POWERS OF THE COUNCIL

The Council has the power to:

- Priorities expenditure
- Receive for the purpose of maintaining oversight over the implementation of the municipality's supply chain management policy, a report within 30 days of the end of each financial year, from the MM regarding the implementation of the supply chain management policy and spending patterns on the budget.

- (ii) All fees, charges, rates, tariffs, scales of fees or other charges relating to the letting of immovable property are annually reviewed; and
- (iii) That where assets are traded in for other assets, the highest possible trade-in price is negotiated.

5. RISK MANAGEMENT 5.1 GENERAL

- (a) It is imperative to take cognisance of potential risks during the supply chain management and specifically the acquisitioning process. Due consideration should ideally be given to the following:
- (i) Identification of acquisitioning risks on a case-by-case basis;
- (ii) Allocation of risks to the party best equipped to manage such; (iii) The Municipality bearing the cost of risks where the cost of transferring them is greater than that of retaining them;
- (iv) The exercising of risk management in a proactive manner and providing adequately for the cover of residual risks;
- (v) Contract documentation clearly and unambiguously assigning relative risks to the contracting parties.
- (vi) Development and implementation of appropriate processes. (vii) Development and implementation of procedures and mechanisms to minimise risk such as screening processes and security clearances. (viii) Development and implementation of adequate administrative procedures relating to the advertising, invitation, opening, registering and recording of bids.
- (ix) Disqualification of bidders who are inherent risks such as those who were found guilty of fraud or who failed to comply with previous government contracts.
- (x) Elimination of prospective contractors who have conflict of interests in specific tenders by implementing a system in terms whereof bidders are obliged to disclose any form of conflict they possibly may have.
- (xi) Risk management should therefore form part of the business plan for the acquisitioning of all goods and services.

5.2 **INSURANCE**

- (a) Any of the following, or a combination thereof, should be applied to protect the interests of the municipality in the procurement process:
- (i) That insurance is taken out in deserving cases.
- (ii) That risk management programmes are established.
- (iii) That liquidated damage clauses be included in contracts where applicable.
- (b) Suitable arrangements should also be made to ensure that insurance related excesses do not cause the failure of emerging small and micro enterprises.

5.3 GUARANTEES

- (a) Performance guarantees should be commensurate with the degree of contractual risk to which BLM are exposed.
- (b) In cases of large and complex contracts, it is advisable to call for bid guarantees to circumvent the submission of irresponsible bids.
- (c) Performance guarantees should spread the cost of the risk of failure between the contracting parties and should be set at such a level that all BLM costs relating to such failure are likely to be recovered.
- (d) It would be prudent to make adequate provision in all engineering and construction works contracts to ensure that monies are available to rectify defects.

(e) Performance bonds in engineering and construction works contracts should be waived in low value, low risk contracts or where a third party carries the risk of failure in an acceptable manner.

5.4 CONTRACT MANAGEMENT

(a) The basic requirements as stipulated in the MFMA (section 116) should be adhered to namely: writing, dispute resolution mechanisms, termination, periodic review of contracts and the duties of the Accounting Officer such as enforcement of contracts, monthly monitoring, regular reporting to council, amendment of contracts etc.

5.5 **SURETIES**

- (a) Though the BLM is sensitive to the plight of Emerging Contractors, all projects considered being of high risk due to the nature and scope of work should be subject to high sureties.
- (b) In terms of the risk management approach, all constraints are subjected to risk analysis from which alternative strategies are developed to avoid, reduce or control the associated risk for the Contractor as well as the BLM.
- (c) It is suggested that the following sureties shall be applicable: Micro projects(0 R200 000) Nil Small projects (R200 000 R500 000) 2.5% 40 Medium Projects (R500 000 R1 000 000) 5% Large projects (R1 000 000 >) 10%
- (d) When classified as a contract that does not require a surety, then such status will apply even if the bid exceeds the maximum amount to prevent bidders preparing a bid under the perception that no surety will be required, but only discover later the surety requirements changed.
- (e) In the case of small and medium projects, the sureties have been reduced and a cash surety may be deducted in equal percentages from the progress payments for the duration of the contract. In the case of large projects not exceeding R2,0 million a cash deduction from the first three progress payments covering the full surety percentage will be allowed. In case of large projects over R2,0 million only bank bonds will be allowed.

5.6 **RETENTION**

(a) The BLM shall retain the following percentages of the project cost from the Contractor during the construction as a guard against defects that might be noticed after practical completion- Micro 5%

Small 5%

Medium 10% Large

10%

The retention will be released as follows:

Micro- 2.5% released at completion of the Project and the balance after 3 months

Small - 2.5% released at completion of the Project and balance after 6 months

Medium - 5% released at completion of the Project and the balance after 12 months

Large - 5% released at completion of the Project and the balance after 12 months

5.7 TECHNICAL AND OTHER PROFESSIONAL CONSULTANTS

- (a) BLM has accepted as a fact the appointment of consultants where the inhouse skills are in short supply. In order to do work on contract, it is necessary that the planning, contract documentation and site supervision be done in an absolute professional manner, maintaining a very high standard and completed in a minimum time and within budget.
- (b) The consultants are to be appointed by applying these guidelines on a rotating roster system and will be grouped together in the different disciplines.

5.8 PROFESSIONAL REGISTRATION AND INDEMNITY INSURANCE

- (a) In order to maintain such a high standard of work and keeping in mind the possible risk Council is exposed to, as well as the relevant legislation regarding the professions; it is of utmost importance that only firms registered with their relevant professional bodies be allowed to be appointed by BLM. Furthermore, all such firms must have a valid and current Professional Indemnity insurance policy in place. The purpose of such a policy is to provide protection for any loss, damage, death liability or take-over of a third party or a loss sustained by the BLM, related to an oversight, omission or negligence pertaining to the non-adherence of professional duties for which the consultant is responsible.
- (b) In keeping with the principles of the RDP as well as procurement and delivery reform, it is essential that a certain margin of preference should be applied, targeting historically disadvantaged consultants.

5.9 UNSATISFACTORY PERFORMANCE 5.9.1 GENERAL

(a) Where unsatisfactory performance of a contractor occurs, it should be brought to his/her attention in writing, preferably by registered mail. If it is not corrected in an acceptable time (which is agreed upon by the BLM and the contractor), the contractor could be informed that the BLM would withdraw from its contractual obligations if a suitable response were not forthcoming. If this persists, legal counsel should be consulted to unilaterally withdraw from the contract in a manner recommended by such counsel. All other costs (over and above the contract price), should also be recovered from the contractor who did not perform should it be necessary to procure emergency goods/services at a higher price. The agreement entered into should form the basis of such action.

5.9.2. **PENALTIES**

(a) All contracts awarded to contractors will be subject to a fair penalty clause. The penalty clause is necessary to encourage contractors to complete their assignments within the contract time. However, due care should be taken so that

penalties imposed should not harm emerging contractors to such an extent that the empowerment of HDIs cannot be realised. (a) The following penalties should be applicable

Micro projects 0.02 % of contract amount per day Small projects 0.04 % of contract amount per day Medium projects 0.06 % of contract amount per day Large projects 0.08 % of contract amount per day

(c) A penalty clause does not and cannot ensure that a contract will be completed on time and therefore the enforcement of penalties will become a reality. Penalties should at least cover any loss incurred by the BLM.

5.10 CONTRACT AMENDMENTS

(a) To enhance the flexibility of the procurement process, it is proposed that the BLM be allowed to extend the quantities of an approved quotation or tender by not more than 20 percent provided that the budget accommodates the additional 20 percent and the requirement is approved. This may be approved by the BLM at the delegated level, provided that the provider agrees to such extension and the additional goods are supplied at the same (or lower) price originally agreed to.

5.11 PAYMENT FACILITATION

- (a) For the sustainability of contractors generally, early payments should be made as soon as all certifications and verifications have been completed. Late payments are detrimental to emerging and small contractors' continuity in business. The BLM undertakes to effect processing invoices as soon as possible but within the time stipulated in the tender document but not exceeding 30 days.
- (b) It is therefore the responsibility of the relevant functionary in the BLM to certify/assess invoices as soon as they are presented to determine whether the invoices actually mirrors the services rendered/goods delivered and that services/goods are of the required quality.

5.12 CONTRACTS HAVING FUTURE BUDGETARY IMPLICATIONS

(a) The requirements of section 33 of the MFMA must be adhered to in regard to contracts which impose financial implications for three years or more (current financial year excluded).

- (iv) Refrain from exerting any form of pressure on decision makers. (v) Prior to the award of any contract, the BLM must ensure that neither the recommended bidder nor any of the directors are listed as companies/directors/persons restricted to do business with the Public Sector.
- (e) The BLM must:
- (i) Reject a proposal for award if it is determined that the bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question
- (ii) Reject a proposal for award if it is determined that the bidder or contracting party were convicted of fraud or corruption during the past five years
- (iii) Reject a proposal if it is determined that the contracting party willfully neglected, reneged on or failed to comply with a government contract during the past five years
- (iv) Ignore any bid from a bidder whose name appears on the national list of restricted bidders/providers/persons; and
- (v) Cancel the contract allocated to a bidder for goods, services or works if it is at any time determined that corrupt or fraudulent practices were engaged in by representatives of the department and/or the provider during the acquisition or the execution of that contract.
- (vi) Address any interference in the process. (sect. 118 of the MFMA)
- (f) To address public complaints, different pieces of legislation were passed in recent years relating to transparency and anti-corruption measures and may the public complain in the first instance at the Municipal Manager. If not satisfied, the person may refer the complaint to the Public Protector or the Courts.
- (g) Legislation that are aimed at addressing complaints and therefore preventing corruption are:
 - Public Protector Act of 1998
 - Corruption Act of 1994
 - Protected Disclosure Act of 2000
 - Promotion of Administrative Justice Act of 2000
 - Promotion of Access to Information Act of 2000.

7.5 INDUCEMENTS, REWARDS, GIFTS AND FAVOURS TO MUNICIPALITY, OFFICIALS AND OTHER ROLE PLAYERS.

- (a) No person who is a provider or prospective provider of goods and services to a municipality, or recipient or prospective recipient of goods disposed or to be disposed by a municipality, may either directly or through a representative or intermediary promise, offer or grant –
- (i) Any inducement or reward to the municipality for or in connection with the award of a contract; or
- (ii) Any reward, gift, favour or hospitality to any official of the municipality or any role player involved in the implementation of the supply chain management policy of them municipality.
 - (b) The accounting officer must promptly report any alleged contravention of sub regulation (a) to the National Treasury for considering whether the offending person, and any representative or intermediary through which such person is alleged to have acted, should be listed in the national Treasury's database of persons prohibited from doing business with the public sector.
 - (c) Sub regulation (a) does not apply to gifts less than R350 in value.

7.6 SPONSORSHIPS

- (a) The accounting officer of a municipality must promptly disclose to the National Treasury and relevant provincial treasury any sponsorship promised, offered or granted to the municipality, whether directly or through a representative or intermediary, by any person who is-
- (i) A provider or prospective provider of goods or services to the municipality; or
